What is a Blog?

A Blog is a collaborative tool that allows students to post their personal reflection about the course or discuss and analyze course related materials. There are three types of blogs in a Blackboard course: individual, group or course blogs. An individual blog belongs only to one student and only that student can contribute to it. A group blog can be added whenever a group is created. Only members of that particular group have access to it. In a course blog all students can participate and contribute to the discussion.

Creating a Blog

1. From the Control Panel, click Course Tools
2. Click Blogs
3. Click Create Blog
4. On the Create Blog page, provide the blog Name and Instructions
5. Set Blog Availability to ‘Yes’
6. If the blog is going to be restricted to a certain time period, select Blog Date and Time Restrictions; otherwise, leave the fields empty
7. Select what type of blog it is: an individual or a course blog under Blog Participation
8. Specify Blog Settings by selecting either monthly or weekly indexing and customizing editing options for students. If the blog is going to be graded, select Grade and specify Points possible
9. Click the Submit button

Creating a Blog Entry

1. From the Course menu, click Tools
2. Click Blogs
3. Click on the blog name
4. Click Create Blog Entry
5. Enter the Title of the entry
