Conflict

???
Strategies

1. Cool down and self selected return when they agree to group goals (not a timeout!)

2. Assign the “troublemaker(s)” an empowering role

3. Pair up a student leader with the “troublemaker” to look out for each other

4. Peace bench: have a seat on the bench until they can work it out independently (give structure & parameters)
Strategies cont.

5. Student peer mediators

6. Leave one of your strong student leaders in charge of a drill so you can step away for severe conflicts that need direct attention

7. Role playing- talk about ways to respond to conflict situations and get everyone’s feedback
Group time

How should we split up into meaningful groups to discuss conflicts & resolutions?
