Undergraduate and graduate students seeking a degree or certificate of graduate study within the Department of Chemistry and Biochemistry are eligible to apply. In addition to considering academic merit, primary preference will be given to military veterans, active service members, and ROTC participants. Secondary preference will be given to pre-med students and students active in the Chemistry Club. The award is financial in nature and funds will be deposited in the Bursar’s account for the student.

Requirements:

- An essay, approximately 500 words in length, describing your reasons for studying chemistry and plans for using that chemistry knowledge after graduation.

ALL MATERIALS MUST BE SUBMITTED TO LINDA DAVIS (FARADAY 319) BY APRIL 1.
