

Department of Chemistry and Biochemistry  
**Organic Chemistry Tenure - Track Faculty Position**

**Organic Chemistry Tenure - Track Faculty Position** - The Department of Chemistry and Biochemistry at Northern Illinois University anticipates the appointment of a tenure-track organic chemist at the Assistant Professor level. The department is seeking an individual with a highly innovative research program that will enhance the doctoral program in the department, attract external funding, and have the potential for developing collaborations across departmental and institutional boundaries. Applicants with outstanding research programs in any area of organic chemistry will be considered. Teaching duties will serve doctoral level to introductory chemistry students. Experience teaching diverse student populations is preferred. **Required:** Ph.D. in chemistry; at least one year of postdoctoral research experience is preferred. A description of the department can be obtained on the web at [www.niu.edu/chembio](http://www.niu.edu/chembio). **Send:** Letter of application, vita, a description of research plans and teaching interests, a list of required start-up equipment with estimated costs, and three letters of recommendation to: **Chemistry Faculty Search, Department of Chemistry and Biochemistry, Northern Illinois University, DeKalb, IL 60115.** **Deadline:** Preference will be given to complete applications received by November 30, 2009; however, applications will be accepted until the positions are filled. The department and university are committed to the principle of diversity and encourage applications from candidates who can contribute to this objective. *AA/EEO Institution*
