

Part-time/Weekend Chemist

A personal care company in the Aurora area is looking for a **part-time/weekend chemist**. This position would be a great opportunity for someone who is interested in gaining real life experience before graduating.

- **Upper-class students pursuing a degree in Chemistry** would be a good fit.
- Previous exposure to wet chemistry or quality assurance outside of laboratory coursework (i.e. student work, independent research project) is preferred but not required, company will train on procedures and protocols as needed.
- Schedule is primarily weekend work, applicant needs to be flexible with all shifts (first, second, and third), additional hours may be available during the week if desired.
- This is a paid contract position with an hourly range of 10-15\$ depending on experience, contract is long term, there is potential for permanent hire eventually. The company is looking for students who are interested in long term employment (1+ years).
- Applicants must not be sensitive to moderate, or occasionally strong fragrance smells.

Interested applicants should send resumes to chicago@labsupport.com and reference Part-time Weekend Chemist. The applicant would be contracting through On Assignment – Lab Support and would have access to all applicable benefits, appreciation pay, holiday pay, etc.
