

# TENURE-TRACK INSTRUCTOR POSITION

## SCIENCE ONE PROGRAM

The Department of Chemistry in conjunction with the Science One Program in the Faculty of Science at the University of British Columbia is seeking applications for a tenure-track Instructor position. The position will start July 1st, 2010. Science One is a first-year interdisciplinary program with a cohort of ~ 75 students. It is taught by a team of instructors based in the program, and professors seconded for three-year terms from UBC science departments. The program is currently in its 16th year of operation, and is based in the new Irving K. Barber Learning Centre at the heart of the UBC campus. Further details may be found at [www.scienceone.ubc.ca](http://www.scienceone.ubc.ca).

The successful candidate will have a M.Sc. or, preferably, a PhD in Chemistry. The individual will have several years of demonstrated excellence in teaching at the undergraduate level, preferably in an interdisciplinary environment, and a strong interest in pedagogical research. The candidate will be committed to an innovative, integrated approach to science teaching and must be prepared to work closely with other members of the Science One team. We encourage applicants whose education and/or research experience is cross-disciplinary. Although the program stresses teaching through interpersonal interaction, we are looking to build a team which has expertise with computer-based teaching methods, including website design and development. Teaching responsibilities will include classroom contact, tutorial operation, and direct mentoring of students.

In addition to duties in Science One, the candidate will teach in the Department of Chemistry. The duties will be split 60% Science One and 40% teaching and service in the Department of Chemistry.

The appointment will be at the Instructor I level.

Applications should consist of a curriculum vitae and a statement of teaching and laboratory development philosophy. Evidence of teaching effectiveness would be an asset. Applicants are strongly encouraged to apply online at [http://hr.ubc.ca/careers/faculty\\_postings.html](http://hr.ubc.ca/careers/faculty_postings.html). However applications may be e-mailed to [jobpostingsfaculty@chem.ubc.ca](mailto:jobpostingsfaculty@chem.ubc.ca).

Applicants should also arrange for three letters of recommendation to be sent to: [jobpostingsfaculty@chem.ubc.ca](mailto:jobpostingsfaculty@chem.ubc.ca).

UBC hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. UBC is strongly committed to diversity and especially welcomes applications from visible minority groups, women, Aboriginal persons, and persons with disabilities, persons of any sexual orientation or gender identity, and others who may contribute to the further diversification of ideas. Canadians and permanent residents of Canada will be given priority.

Deadline for applications is **January 15th, 2010**.
