

Major in Family and Child Studies: Emphasis 2: Family Social Services

College of Health and Human Sciences
Northern Illinois University

Transfer Guide for Illinois Community College Students

The mission of the School of Family, Consumer, and Nutrition Sciences at Northern Illinois University is to generate and transmit knowledge that supports families and individuals in meeting human needs for self development, social interaction, resource allocation, clothing, food and nutrition, and hospitality. All programs lay the groundwork for graduate study.

All three emphases in family and child studies prepare the student to work as professionals serving families and children, or to pursue secondary teaching certification in Family and Consumer Science. The [*family social services*](#) emphasis is intended for students who seek entry-level employment in family service, mental health, or community welfare agencies which serve primarily older children, adolescents, adults, couples, and/or the elderly. It is recommended as preparation for advanced degrees in social work, family and child studies, marriage and family therapy, and related fields. Students hoping to do graduate work should strongly consider a minor in sociology, psychology, or political science.

Students not meeting the requirements for entry into the internship may, with the consent of the department, change to emphasis 1, family and individual development, in order to complete graduation requirements.

The family and child studies major is a limited admissions program which requires students to submit a program application directly to the school office. Students must have already completed the course requirements as described in the *Undergraduate Catalog* [limited admission section for Family & Child Studies](#) prior to submitting an application. Applications for fall admission are due by March 1 and applications for spring admission are due by September 15. Students admitted to NIU, but not to a specific major in the school, will be classified as pre-majors in the School of Family, Consumer and Nutrition Sciences.

This transfer guide is designed as an advising tool to facilitate a smooth transition between institutions by identifying relevant course work recommended to be completed prior to transfer. Community college students are advised to also complete an A.A. or A.S. degree prior to transfer and to consult the [NIU Articulation Handbook](#) for information regarding the transferability of courses. To view course equivalencies, students are encouraged to review the [Limited Admissions Programs Transfer Course Equivalents](#) section provided by the NIU Transfer Center. All students planning to transfer are advised to consult with the College of Health and Human Sciences for detailed information.

Prospective students should make formal application to the School of Family, Consumer, and Nutrition Sciences by March 1 of their sophomore year. A student who enters the program with the courses as listed and who have completed an A.A. or A.S. degree can usually expect to complete the NIU program in two years.

Major in Family and Child Studies – Emphasis in Family Social Services¹

Courses Recommended Prior to Transfer

ENGL 104* Rhetoric and Composition II (3)
FCNS 280* Human Development, the Family, and Society (3)
