Present: Melissa Lenczewski (Acting Chair), Kate Cady (COMS), Sherine Elsawa (BIOS), Steve Estes (Ex-Officio), Angela Grippo (PSYC), Doris Macdonald (ENGL)

Suzanne Hogan (CLAS)

Absent: Dave Ballantine (Chair), Andrea Radasanu (POLS)

A. Action on Minutes

Minutes from the #2 meeting on September 23, 2015, have been submitted electronically to the catalog editor.

B. Miscellaneous

None

C. Curriculum – Old Business

None

D. Curriculum – New Business

College of Liberal Arts and Sciences

Revisions to the interdisciplinary minors were TABLED until next week when Dave will be present to discuss.

Environmental Studies

The new course proposal for ENVS 435X was approved. It will be crosslisted with WGST 435.

Department of Geography

The new course proposal for GEOG 601 with slight changes approved by the department.

Department of Physics

The deletion of PHYS 140 and 150A were approved. The new course proposal for PHYS 101 was approved with minor corrections. Course revisions for PHYS 150, PHYS 151, and PHYS 401 were approved.
Women’s, Gender and Sexuality Studies

The new course proposal for WGST 435 was approved and will be crosslisted as ENVS 435X. A revision to WGST 332 was also approved. Revisions to the Minor in LGBT Studies, the Minor in Women’s and Gender Studies, the Certificate of Undergraduate Study in Women’s and Gender Studies, and the Certificate of Graduate Study in Law and Women’s and Gender Studies were all approved.

Tabled:

CLAS  Program Revision: Interdisciplinary Minors

Program Revision: Minor in Classical Studies
Program Revision: Minor in Cognitive Studies
Program Revision: Minor in Latino/Latin American Studies
Program Revision: Minor in Linguistics
Environmental Studies

New Course  Page 260, 2015-16 Graduate Catalog

CIP: 03.0103

ENVS 435X. GENDER AND THE ENVIRONMENT (3). Crosslisted as WGST 435. Topics and issues pertaining to gender and the environment such as the role of gender and other social factors in perceptions, knowledge, and behaviors regarding the environment today and in the past; women’s contributions to environmental arts and sciences; the role of gender in environmental activism and policy in the U.S. and around the globe.

Rationale: Topics courses in women, gender, and the environment have been offered over the past twelve years through the general topics course number in Women’s, Gender, and Sexuality Studies, and cross-listed with ENVS 450 in 2012 and 2014. We have found that there is sufficient student demand and instructor expertise in WGSS and in ENVS to establish a separate course number for a course on gender and the environment. This course will serve the WGSS minor and certificate and the ENVS major and minor. Students may take only six credits total in WGSS 430 Topics which limits their choices of electives to complete their WGSS minor or major.

Non-Duplication: A thorough search of the course catalog was completed. No other course offerings with similar content were found. This course will be crosslisted with WGST 435.

Department of Geography

New Course  Page 240, 2015-16 Graduate Catalog

CIP: 45.0701

GEOG 601. PRACTICE OF GEOGRAPHY (1/2). Development and evolution of Geography as a spatial science. Discussion of key debates, body of knowledge, and disciplinary questions that influence the current academic and professional practice of Geography. May be repeated up to 4 credit hours for the M.S. or Ph.D. degrees.

Rationale: GEOG 663 already covers the evolution of Geographic thought to the modern period, and GEOG 600 offers examples of the current state of research in Geography. As such, students receive exposure to many of the concepts previously covered in GEOG 604 through other coursework. In order to offer a larger degree of scheduling flexibility for students, and increase course opportunities, we propose to delete GEOG 604 and replace an essential part of it (professionalism and professional development) with this smaller course. The modest increase in credit hours and faculty workload is distributed across the entirety of faculty, thereby ensuring that the 601 coordinator is still free of additional teaching responsibilities, and allowing experts in sub-disciplines to present and grade the information.
Non-Duplication: A thorough search of the course catalog was completed. No other course offerings with similar content were found.

Other Catalog Change

↓

Rationale: Change in requirements affiliated with the new course GEOG 601.

Department of Physics

Course Deletion

Page 314, 2015-16 Undergraduate Catalog

140. PHYSICS AND SOCIETY (3).

Rationale: This course was taught regularly prior to 1993 and then one or two times since though not in at last eight years. It is not a general education course and typical enrollment was less than 5 students. Part of the contents can be covered in PHYS 150 and 150A. Therefore, PHYS 140 is no longer needed.
Course Deletion

Page 314, 2015-16 Undergraduate Catalog

150A. PHYSICS (4).

Rationale: We will soon be proposing a new Physics Laboratory course to take the place of PHYS 150A. The change from a single 4 credit course to a 3 credit lecture and 1 credit lab will allow students who have taken the lecture course and need the lab to make up only the part of the course they are missing.

New Course

Page 314, 2015-16 Undergraduate Catalog

CIP:  40.0801

101. INTRODUCTION TO THE PHYSICS MAJOR (2). Introduction to Northern Illinois University and the baccalaureate experience in physics. Exploration of factors influencing the transition into the university and the undergraduate physics programs. Introduction to department and university resources. Development of skills to enhance academic success with a focus on student responsibility for learning. Introduces the student to physics concepts including particles, forces, units, errors, and modern physics, and required skills in mathematics and computing. Substitutes for UNIV 101. Available only to first-year students. May not be repeated.

Rationale: This course will provide the material in UNIV 101 emphasizing the needs of students majoring in physics. Goals include developing student skills in collaborative learning, reflection, communication, interpersonal competencies and critical thinking. Course outcomes include students understanding the transition to college, the university and departmental resources available to them, and what will be expected of them in classes as a whole and in physics in particular. The students will practice fundamental skills in mathematics, writing, computer-related, communication, critical thinking, and collaborative learning.

Other Illinois universities offer a similar course in physics at the 100-level including at UIUC a course covering conceptual and problem solving skills in preparation for introductory physics classes, and analysis and mathematical descriptions of physical situations including understanding the meaning of the solutions. Illinois State University offers a 100-level introduction to selected contemporary topics in pure and applied physics. The proposed PHYS 101 will incorporate some of the concepts of the courses at UIUC and ISU including an introduction to physics concepts, mathematical and computing skills physics students will need for advanced physics courses, and an overview of engagement opportunities in the department. Students will also communicate with upper-level physics students and physics faculty to obtain their perspectives on how to succeed as an undergraduate major in physics.

Non-Duplication: The Director of the First- and Second-Year Experience Program was notified with regard to this course and has indicated there is no significant duplication with any of their current course offerings. It was noted that this course represents a fine meld of UNIV content plus material from the Department of Physics.

Course Revision Page 314, 2015-16 Undergraduate Catalog

150. PHYSICS (3). Development of concepts and principles from selected topics in mechanics, electricity, heat, sound, and light. Application to everyday life and contemporary issues facing society, and their implications. Topics may include energy sources, climate change, medical physics, among others. Not recommended for students who have had a year of high school physics. Not available for credit to students with credit in PHYS 150A.

Rationale: This course change will now include some of the components of PHYS 140 that we are proposing to remove from the catalog. By adding components of PHYS 140, students will learn the relationship between physics and everyday experiences. Furthermore, this change will enable this course to be articulated to courses which used to be mapped to PHYS 140.

Course Revision Page 315, 2015-16 Undergraduate Catalog

401. THE PROFESSIONAL PHYSICS TEACHER (4-2). Seminar directed to … ….

Women’s, Gender and Sexuality Studies

New Course
Page 210, 2015-16 Undergraduate Catalog

CIP: 05.0207

Women’s, Gender, and Sexuality Studies (WGST)
WGST 435. GENDER AND THE ENVIRONMENT (3). Crosslisted as ENVS 435X. Topics and issues pertaining to gender and the environment such as the role of gender and other social factors in perceptions, knowledge, and behaviors regarding the environment today and in the past; women’s contributions to environmental arts and sciences; the role of gender in environmental activism and policy in the U.S. and around the globe.

Rationale: Topics courses in women, gender, and the environment have been offered over the past twelve years through the general topics course number in Women’s, Gender, and Sexuality Studies, and cross-listed with ENVS 450 in 2012 and 2014. We have found that there is sufficient student demand and instructor expertise in WGSS and in ENVS to establish a separate course number for a course on gender and the environment. This course will serve the WGSS minor and certificate and the ENVS major and minor. Students may take only six credits total in WGSS 430 Topics which limits their choices of electives to complete their WGSS minor or major.

Non-Duplication: A thorough search of the course catalog was completed. No other course offerings with similar content were found. This course will be crosslisted as ENVS 435X.

Course Revision

WGST 332. GROWING UP FEMALE GIRL (3). Examination of the experience of growing up female as a girl from an interdisciplinary perspective, with attention to differences and similarities in ethnicity, race, gender identity, class, and sexual orientation. Theories and research on female identity development from such disciplines as psychology, literature, biology, and sociology. Topics may include … ….

Rationale: As a field, Women, Gender, and Sexuality Studies promotes awareness that individuals’ assigned sex (at birth) sometimes diverges from their gender identity (ie, psychological or interior sense of self). Someone who was declared a boy at birth because of biological characteristics, for instance, might experience a deep and persistent sense of identity as a girl. The term “female” implies that this class only addresses those people who were designated girls at birth, while we want to indicate that the class addresses those who people who identify as girls, regardless of their biological characteristics. This is consistent with the current terminology of the field, and it makes the course more inclusive of transgender students.

Interdisciplinary Minors
↓
Minor in LGBT Studies
Coordinator: Kristen Myers, Director of the Center for the Study of Women’s, Gender and Sexuality Studies

The interdisciplinary minor in LGBT Studies is recommended for all students interested in examining historical … ….

Elective courses for the minor … …. Students interested in declaring this interdisciplinary minor should contact the Center for the Study of Women’s, Gender and Sexuality Studies Program, Reavis Hall 103, early in their college careers for information and advisement.

Students may enroll in … …. Independent study and topics courses in a variety of departments may meet the minor requirements, with the approval of the coordinator of the LGBT Studies program, when substantial treatment of LGBT Studies is included in the course.

Students must complete 18 semester hours for this minor and are urged to complete WGST 101, LGBT 350 and LGBT 400 as early as possible. No more than 9 credits from the list of requirements can be applied toward both the LGBT minor and the WGST minor.

Requirements (18)
LGBT 350 – Lesbian, Gay, Bisexual and Transgender Studies (3)
LGBT 400 – Queer Theory (3)
WGST 101 – Women, Sex, and Gender Today (3)
WGST 432 – Feminist Theory (3)

Three of the following (9) to be chosen in consultation with the director
ANTh 422 – Gender in Southeast Asia (3)
↓
SOCi 495 – Proseminar in Sociology (3)
WGST 332 – Growing Up Female Girl (3)
WGST 430 – Special Topics in Women’s Studies (3)
WGST 436 – Current Debates Seminar: Women and Gender (3)

Rationale: Correction of the Center’s name, addition of LGBT 400 to the list of required courses, and correction to the title of WGST 332. Because of the significant overlap in the list of courses that can be used to satisfy the requirements for the LGBT and WGST minors, the proposed revision to catalog language ensures that a student attempting to complete both minors will have at least a limited overlap in coursework.
Coordinator: Kristen Myers, director, Center for the Study of Women's, Gender and Sexuality Studies Program

The minor in women’s and gender studies is recommended for all students interested in examining historical and … ….

Students must complete 18 semester hours for this minor and are urged to complete WGST 101, WGST 202, and WGST 432 as early as possible. No more than 9 credits from the list of requirements can be applied toward both the LGBT minor and the WGST minor.

Requirements (18)
Six or more semester hours in the minor must be taken at NIU.

- WGST 101 – Women, Sex, and Gender Today (3)
- WGST 201 – Gender and Justice in Global Perspectives (3)
  OR WGST 202 – Women and Cultural Expression (3)
  AND WGST 432 – Feminist Theory (3)

Three of the following (9)
- ANTH 361 – Cross-Cultural Perspectives on Women (3)
- WGST 324 – Women in Science (3)
- WGST 332 – Growing Up Female Girl (3)
- WGST 390 – Internship in Women’s and Gender Studies (1-3)
- WGST 434 – Language and Gender (3)
- WGST 435 – Gender and the Environment (3)
- WGST 439 – Independent Study in Women’s and Gender Studies (3)

Rationale: Correction of the Center’s name, rearranging the placement of two courses within the requirements, correction of the title for WGST 332, and addition of new course WGST 435 to the list of electives.

Women’s and Gender Studies

Certificate of Undergraduate Study (12)
Coordinator: Kristen Myers (Center for the Study of Women's, Gender, and Sexuality Studies)

This certificate is designed for students interested in examining issues of historical and contemporary gender inequality, both within the U.S. and abroad. Students will be able to critically assess the ways that gender has been used to constrain people's opportunities as well as ways that it has been harnessed as a tool for change. The certificate will help students function as informed citizens and successful professionals in the 21st century. Course material will increase students' sensitivity and effectiveness in a variety of interpersonal and professional settings. The certificate is particularly appropriate for students preparing for or currently working in a variety of disciplines or careers in business, communications, the arts, education, health, humanities, social sciences, and human services.

**Requirements**

Two of the following courses (6)

- LGBT 400 – Queer Theory (3)
- WGST 101 – Women, Sex, and Gender Today (3)
- WGST 201 – Gender and Justice in Global Perspectives (3)
- WGST 202 – Women and Cultural Expression (3)
- WGST 432 – Feminist Theory (3)

Two of the following courses in any field, focused on women and/or gender, to be selected in consultation with the director of Women's, Gender, and Sexuality Studies (6)

- ANTH 361 – Cross-Cultural Perspectives on Women (3)
- HIST 473 – Topics in Women's History (3)
- LGBT 400 – Queer Theory (3)
- PHHE 306 – Human Sexuality (3)
- WGST 240 – Issues in Women's and Gender Studies (3)
- WGST 332 – Growing Up Female (3)

Certificates of Graduate Study

Law and Women’s and Gender Studies

Course work leading to the certificate of graduate study in law and women’s and gender studies permits study of the intersection … …. 

Students interested in pursuing this certificate are advised to consult with the director of the Center for the Study of Women, Gender, and Sexuality women’s studies or the associate dean of the College of Law … …. 

Requirements (12)

Students must complete one course from each of the following sections I through IV. With the approval of the associate dean of the College of Law and the director of the Center for the Study of Women, Gender, and Sexuality, topical courses in the College of Law may meet the certificate requirements under Section III when substantial treatment of law and women’s and gender studies is included in the course.

With the approval of the director of the Center for the Study of Women, Gender, and Sexuality Women’s Studies Program, independent study and topical courses in a variety of departments may meet the certificate requirements under Section IV when substantial treatment of law and women’s and gender studies is included in the course. Non-law students may register for Law courses only with approval of the associate dean of the College of Law.

I. WGST 620 – Feminist Theory (3)
II. One of the following (3-4)
LAW 800 – Externship (4)
   (Available only to College of Law students)
   (Topic and placement require advance approval by associate dean of the College
   of Law and director of the Center for the Study of Women, Gender, and
   Sexuality Women’s Studies)
LAW 805 – Domestic Abuse Clinic (4)
   (Available only to College of Law students)
WGST 602 – Internship (3)
   (Topic and placement require advance approval by director of the Center for the Study of Women, Gender, and Sexuality Women’s Studies)

III. One of the following (2-3)
LAW 610 – Family Law (3)
LAW 672 – Employment Discrimination (2)
LAW 685 – Gender and the Law (3)
LAW 693 – Gender and the Constitution (3)
LAW 696 – Sexuality and the Law (3)
LAW 795 – Directed Research (3)
   (Topic requires advance approval by associate dean of the College of Law and
director of the Center for the Study of Women, Gender, and Sexuality Women’s Studies)
LAW 900 – Seminar (3)
   (Topic requires advance approval by associate dean of the College of Law and
director of the Center for the Study of Women, Gender, and Sexuality)

IV. One of the following (2-4) or an additional course from Section II
Courses marked with an asterisk meet this requirement when substantial treatment of
women’s and gender studies is included and the course is approved in advance by the
director of the Center for the Study of Women, Gender, and Sexuality.
ANTH 522 – Gender in Southeast Asia (3)
ANTH 568 – Anthropology of Gender (3)
CAHA 759 – Critical Feminist Pedagogies in Adult and Higher Education (3)
*CAHC 592 – Special Topics in Counseling (1-3)
   (May meet the certificate requirements when substantial treatment of women’s studies is
   included.)
   (Requires advance approval of the director of Women’s, Gender, and Sexuality Studies.)
CAHC 595 – Women and Careers (3)
COMS 640 – Seminar in Communication and Gender (3)
*EPFE 590 – Workshop in Education (1-3)
