Environmental, Health & Safety
Summer Internship

Overview:
Illinois River Energy, located in Rochelle, Illinois, is a dry mill, corn-based processing facility that produces fuel grade ethanol and two forms of distiller’s grains.

The ethanol plant processes over 40 million bushels of corn per year and annually produces up to 115 million gallons of denatured fuel grade ethanol and over 300,000 tons of dried distillers grains with solubles (DDGS).

The summer internship opportunity is designed to offer hands-on experience for someone aspiring to a career in the Environmental, Health and Safety field. The intern will work under the direction of IRE’s Environmental, Health & Safety Lead. In addition the intern will work and interact with the Engineering and Production Departments.

Position Summary:
• Assist EH&S Lead in the development, maintenance, and implementation of environmental compliance programs
• Document operator proficiency of Standard Operating Procedures as required by the Process Safety Management Program
• Monitor CEMS (Continuous Emissions Monitoring system) and other required regulatory processes
• Participate in the identification, documentation, and solutions associated with workplace hazards
• Work closely with EH&S Lead and Process Engineer to ensure aspects of Process Safety Management requirements are fulfilled
• Update health, safety and chemical hygiene safety policies

Minimum Qualifications:
Qualified candidate must be working toward a degree related to the environmental, health, & safety field.

Desired Qualifications:
Knowledge of environmental, health & safety government regulations as they pertain to the ethanol industry
Proficiency with Microsoft Office products (Excel, Word, PowerPoint, Outlook)
Quality data collection, organization, and management skills
Excellent written and oral communication skills

Position:
Paid Internship, Full-Time - Monday-Friday 40 hours per week
Start Date: Summer 2014 (date flexible)

Interested parties may apply by visiting the Illinois River Energy Website for an application form and directions for submission at www.illinoisriverenergy.com/employment_openings.html.
