Review Segments

**Reading Comprehension**
This section of the test measures your ability to understand what you read. The GMAT Review instructor will guide you with certain techniques to enhance your knowledge and insight.

**Critical Reasoning**
This review of logical reasoning will help you identify conclusions, discover hidden assumptions, and critically evaluate the strengths or weaknesses of an argument.

**Mathematical Skills**
This section tests your knowledge of arithmetic, algebra, geometry, weighted averages, proportions, factoring polynomials, and more. The instructor will teach you strategies so you can apply these concepts to the word problems you will see on the test.

**Sentence Structure**
It has probably been a long time since you last studied grammar, but this review helps you avoid the grammatical and verbal traps that will be on this section of the test.

Instructor
Sandra Polanco, Esq. Northern Illinois University
Associate Director of Compliance and Investigations
GMAT Test Review, Fall 2011
