

CURRICULUM-RICH WORKSHOP

Engage your students in the Stock Market Game!

The Stock Market Game™ (SMG) is a fun and engaging way to teach important math and financial literacy skills using an online simulation that allows students to participate in real-time investing, using \$100,000 of imaginary money.

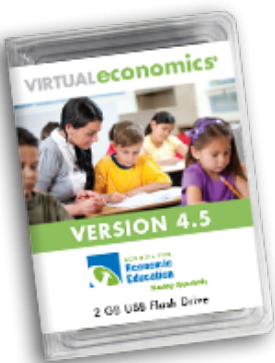

The SMG provides lessons, activities, and assessments aligned to specific grade levels and the Illinois State Standards in math and reading. You will also learn about InvestWrite, an extension of the SMG with opportunities to win state and national prizes through an essay-writing competition.

SMG is a program of Securities Industry and Financial Markets Association for Investor Education which is provided for Illinois teachers by Econ Illinois.

VIRTUALEconomics®

Virtual Economics® Version 4.5

Virtual Economics® Version 4.5 provides resources to enhance existing social studies, math, and science curricula. Learn to navigate this easy-to-use, newly updated resource of economics lessons that are linked to teaching tips, state standards, and motivating videos on current topics.

VE 4.5 Features:

- New Publications
- More Flash Drive Memory
- Automatic Lesson Updates
- Multiple Search Options
- Useful Tips
- Glossary

This workshop and the accompanying materials are made available to teachers through the generous support of State Farm and the Council for Economic Education. *First-time participants only.
