D. Visiting Committees/Guests
   Steve Cunningham presented the Holiday Schedule for 2011 that the University Council passed on October 6, 2010

   He then moved on to discuss the proposed Salary Stabilization Plan that will be effective January 1, 2011. The proposed increment will be based on salary. Those earning less than $100,000 will receive the highest across the board increase, those with a salary between $100,000 and $150,000 will receive the next level of across the board increase, and those with a salary over $150,000 will receive the lowest level of across the board increase. There will be a merit component for faculty that will be a supplemental distribution. The across the board range that they are looking at is between 2.5% and 2.75%.

   One hundred percent of hourly civil service employees would receive the highest across the board increment, while ninety-nine percent of exempt civil service will receive the highest across the board increment. The increment will be effective January 1, 2011, will not be retroactive to July 1, 2010, and is contingent on Board of Trustees approval.

   Dr. Cunningham was asked where the funds are coming from, and he answered that NIU has worked with the available funds to implement employment stability and to fund payroll without state funding. NIU prepared for and implemented cuts to budgets so reserves were established and with those reserves, we can plan for expected budget cuts and implement a conservative salary increase. Additionally, this increase is necessary as we have high turnover and low replacement of position. We have lost about 10% of our workforce per year, and about half of that is faculty.

   The Executive Board of OSC said that they were thankful for any increase at this point, but that more is always better.

   SPS would like the division to be broken down from three levels to four, adding in a new first level of salaries between $0-$50,000 receiving the highest across the
board increase, and those with salaries between $50,000 and $100,000 receiving the next, with the other levels remaining the same. They would like to do this to help those who earn the least receive a greater percentage to help offset the compression.

Dr. Cunningham then discussed hourly reporting for employees. Work time reporting in fifteen minute intervals is necessary based on a statutory requirement set in 2006. Initially, NIU felt they were in compliance because the forms that we use to report our time are in 10 minutes intervals. Recent audit findings across the state have changed that perception, making it mandatory for NIU employees to report their hours worked in fifteen minute intervals as of January 1, 2011, per the Board of Trustees.

Hourly employees are already complying because they complete an hourly time sheet. For exempt employees, this is a change. It will require exempt employees to keep their own calendar to know exactly how many hours were worked on a given day. A line will be added to the Benefits Usage Form so the total number of hours worked per month can be recorded, both regularly scheduled time, as well as time worked outside of that. Reporting for faculty will be done at a later date, and it may become part of their faculty reporting worksheets.

B. Holiday Break
A discussion about potential closure of NIU beginning on December 18, 2010 was discussed with Steve Cunningham and how that affects employees with respect to time off requirements. NIU is considering closing from December 20-22, 2010, which would require employees to use three additional benefit usage days in 2010.

Operating Staff Council members were asked to poll those they work with and know, and of the 386 responses, 353 said they would like to take those days with required benefit usage, 30 were opposed, and three had no opinion. Concerns that were raised surrounded concern about those who do not have adequate time off accrued to cover the required time off. People were worried about the potential impact to those who are planning to use those days toward retirement at the end of December. Additionally, it was emphatically stated that people want to know if this is necessary early so they can plan accordingly.

Dr. Cunningham addressed some of the issues. If a person does not have adequate benefit accruals, then they are allowed to go into the negative, with the understanding that they will accrue those days in the coming months. For those employees retiring on January 1, 2011, HR will work with them so they are not negatively affected by this requirement. Additionally, there is the option to take the days with no pay, even if employees have benefit accruals.

There are some employees who do have to work during that time, and this is a concern for those people, but it is part of their job requirements. He agreed that this decision does need to be made quickly, but he has to consult with SPS Council for their opinion, and then with President Peters about the situation.

The Operating Staff Council approved this closure with required benefit usage days.

X. New Business

XI. Adjournment
