We interviewed several students and many of the same themes came up with each one of them. Our question was in regards to making the NIU campus a campus for all seasons. Many of the students mentioned that there is just not much to do on campus and that the campus itself shuts down too early. One of the students stated she was not even aware that a bowling alley even existed. Here are some of the suggestions our students voiced:

- More frequent concerts at smaller venues
- More coffee houses around campus such as the new one at Holmes
- More use of posters and less email to announce events
- Each school can host a “festival” of sorts near the lagoon
- Dave & Busters in town
- Bigger department stores in town
- Improved Husky bus service
- Bring the campus physically closer together
- More advertisements of what is available (bowling, conservatory, etc)
