ON TRACK

Speech Fluency Camps

The Northern Illinois University Speech-Language Pathology Program is excited to offer summer Speech and Language Fluency Camps for children entering grades 2 through 7. These 6 week camps are supervised by a licensed Speech-Language Pathologist and conducted by a team of graduate students enrolled in the NIU Speech-Language Pathology Program.

The ON TRACK camps are designed for children with fluency concerns who stutter or have other speech fluency disorders. Campers will utilize learning tools for managing stuttering and enhancing fluency while simultaneously paying attention to the behavioral, attitudinal, and emotional components of fluency disorders that impact communication in daily life. Additionally, each session will provide campers with both individual and group activities.

This is a great way for your child to stay ON TRACK with their fluency strategies in a fun and relaxed atmosphere!
