IV. NEW BUSINESS

A. Curricular Items Referred from CUC

- COLLEGE OF EDUCATION, Curriculum Committee Meeting #14, May 4, 2010
  Department of Teaching and Learning

There was much discussion on the suggested catalog language for the Major in Special Education.

“Upon completion of the first block of teaching methods and clinical courses work, students must have earned a grade of C or better in all professional block course work.”

J. Wolfskill asked if at this point the students had remaining professional courses to take. He indicated that he thought the intent was to have a grade of “C” or better in each professional course in the blocks.

M. Pritchard stated that possibly the College of Education was trying to make the point that students have to get satisfactory grades in the entire first block before going onto the second block.

D. Wade suggested that the language for the Major in Special Education be tabled for clarification from the College of Education till next month’s meeting on whether the “C” or better is referring to prior classes or all. Is this referring to the first block or subsequent blocks and/or all professional coursework.

S. Warber indicated that there is a new Illinois State Board of Education requirement for teacher certification beginning in 2012. The requirement is that a grade of “C” or better must be achieved in all professional courses. Right now there is the question of what the professional courses are.

S. Warber said that this would be coming back again to APASC because of this new state requirement.

J. Wolfskill moved to table the catalog changes for the Major in Special Education and refer it back to the College of Education for clarification on the language “must have earned” or “must earn” C or better in block courses. D. Wade seconded. Motion carried.

- COLLEGE OF HEALTH AND HUMAN SCIENCES #2, September 17, 2010
