Lenczewski called the meeting to order.

APPROVAL OF AGENDA

Rohl made a motion, seconded by Gray, to APPROVE THE AGENDA. Motion passed unanimously.

ANNOUNCEMENTS

1. Minutes from the October 11, 2012, were electronically approved.
2. Section D, catalog changes approved by another committee of the Undergraduate Coordinating Council.

NEW BUSINESS

1. Statement on Student Learning Outcomes (SLOs). Lenczewski explained that this catalog change is a response to a Higher Learning Commission (HLC) accreditation criterion that states that the institution be able to demonstrate “Clearly stated goals for student learning and effective processes for assessment of student learning”... “for its curricular and co-curricular programs.” Birberick added that colleges were initially asked to provide the SLOs for each of their programs so that they could be added to the catalog. However, after further consideration, and because all of the programs are already required to provide SLOs with program reviews, it was decided to simply add link to those SLOs. They are available through the Office of Assessment Services website. Lenczewski noted that some colleges are still proposing catalog language that will add the SLOs to their programs due to individual accreditation requirements and that these proposals are in the packets for the CUC today. She reminded CUC members that SLOs are the purview of the individual programs and should not be wordsmithed. Aase asked what if a program added SLOs without knowing that this new language was being proposed. Smith noted that both the College of Business and College of Engineering and Engineering Technology knew, but still proceeded with adding the SLOs for accreditation purposes. These proposals are in the CUC packets. Gray made a motion, seconded by Kilaparti, TO APPROVE THE OTHER CATALOG LANGUAGE TO BE ADDED TO EVERY PROGRAM IN THE CATALOG UNLESS OTHER SPECIFIC STUDENT LEARNING OUTCOMES ARE PROPOSED BY INDIVIDUAL PROGRAMS. Motion passed unanimously. The language to be added is: “The student learning outcomes for this degree are
CONSENT AGENDA

Aase made a motion, seconded by Gray, to APPROVE THE CONSENT AGENDA. The motion passed unanimously. The following college minutes with no undergraduate-level curricular items were so received.

College of Education #3
College of Health and Human Sciences #2
College of Liberal Arts and Sciences #3
College of Visual and Performing Arts #1
College of Visual and Performing Arts #2

The following college minutes with undergraduate-level curricular items were so received.

College of Business #2
College of Engineering and Engineering Technology #3
College of Engineering and Engineering Technology #5
College of Engineering and Engineering Technology extra
College of Health and Human Sciences #3 (pending APASC approval)
College of Health and Human Sciences #4
College of Health and Human Sciences #5 (pending Pres. Peters approval)
College of Health and Human Sciences #7 (pending APASC approval)
College of Health and Human Sciences #8 (pending GEC and Pres. Peters approval)
College of Liberal Arts and Sciences #2 (pending APASC approval)

COLLEGE MINUTES AND OTHER CURRICULAR ITEMS FOR DISCUSSION

**College of Business #3**  
Lenczewski pointed out new courses. She reminded the CUC that if there is a statement about nonduplication in a new course’s rationale that this is acceptable for the CUC’s purposes, unless there is another department that the CUC thinks should be consulted. Aase made a motion, seconded by Rohl, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF BUSINESS #3 (10/16/12) PENDING APASC AND BOT APPROVAL. Motion passed unanimously.

**College of Education #2**  
Lenczewski addressed the comments that were made in Vibe about these minutes. The S/U grading change on page 1 does not need APASC approval, but the GPA requirement on page 2 does. Birberick reported that the latter item was sent back to the department by APASC for better rationale. Aase thought the rationale was clear enough. Birberick explained that one of APASC’s roles is academic standards and
they wanted a better rationale for reducing GPA, which could also be interpreted as reducing the standards for that program. The committee (APASC) has invited a representative from the program to speak to this issue. Shernoff made a motion, seconded by Gray, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF EDUCATION #2 (9/18/12) PENDING APASC APPROVAL. Motion passed unanimously.

College of Education #4
Lenczewski reported that CUC members seemed to approve of these minutes on Vibe. Rohl noted that because the Department of Biology is deleting BIOS 104, it need to be deleted from the Athletic Training (AT) program. Smith noted that she contacted the College of Education to confirm that CLAS informed them of the deletion of BIOS 104. The College of Education was informed of the deletion, but Smith has not seen a proposal for a replacement for BIOS 104 in the AT program. It was also pointed out that the hours for requirements outside of the department may need to be changed. [Catalog Editor Note: They do not need to change. While BIOS 104 is a 4-credit-hour course, and one of the other options is a 3-credit-hour course, a third option is a combination of a 3-hour course and a 1-hour lab.] Lenczewski also noted the new course, Emergency Medical Response, and that this could be a good course for the Certificate of Undergraduate Study in Homeland Security. Aase made a motion, seconded by Rohl, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF EDUCATION #4 (10/16/12). Motion passed unanimously.

College of Engineering & Engineering Technology #2
In these minutes is proposed language for how the major can be calculated for the degree in Mechanical Engineering. Discussion followed regarding how a major GPA is calculated and what is the minimum number of hours for a major. The consensus was that this change is to better inform students and it is the prerogative of the department to do so. Rohl made a motion, seconded by Kilaparti, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF ENGINEERING AND ENGINEERING TECHNOLOGY #2 (10/1/12). Motion passed unanimously.

College of Engineering & Engineering Technology #4
Lenczewski noted that CUC members’ comments on Vibe indicated approval. Kilaparti made a motion, seconded by Rohl, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF ENGINEERING AND ENGINEERING TECHNOLOGY #4 (10/15/12). Motion passed unanimously.

College of Health & Human Sciences #6
Lenczewski reported that there were no comments about these materials on Vibe. She noted the new course FCNS 303 – Hospitality Law. This does not require verification of nonduplication from the College of Law because their courses are considered graduate courses, so there would be no duplication with this undergraduate course. Gray noted that the college did check with the Department of Management and received approval to include one of their courses in the prerequisite. Rohl made a motion, seconded by Gray, TO APPROVE THE
UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF HEALTH AND HUMAN SCIENCES #6 (10/12/12). Motion passed unanimously.

College of Liberal Arts & Sciences #4

Lenczewski noted that similar curricular changes are referred to in more than one set of the college’s materials. For CLAS #4, there was a question about the revision to BIOS 413 and the change in credit hours from 3 to 4. It was explained that the department is adding a laboratory component to the course. Rohl asked about the addition of PHYS 273 to the corequisite for BIOS 355 and Lenczewski responded that it’s the difference between taking a physics course with calculus versus taking one without calculus; Calculus II is a corequisite for PHYS 273. Rohl made a motion, seconded by Gray, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF LIBERAL ARTS AND SCIENCES #4 (10/3/12) PENDING APASC, GEC, AND PRES. PETERS APPROVAL. Motion passed unanimously.

College of Liberal Arts & Sciences #5

Lenczewski reported that there was a question on Vibe about the changes to Emphasis 2, Secondary Teaching in Chemistry and are they increasing the credit hours. After a brief discussion, it was clarified that they are changing the in the department requirements from 51-62 to 52-58. So only the minimum number of hours required is increasing; the maximum number is actually decreasing. Rohl made a motion, seconded by Gray, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF LIBERAL ARTS AND SCIENCES #5 (10/17/12) PENDING GEC AND BOT APPROVAL. Motion passed unanimously.

College of Liberal Arts & Sciences #6

Lenczewski reported that there was a question on Vibe about different titles for POLS 210. She contacted the department and they confirmed that the title should be Introduction to Law and Courts. The competency statements for a number of Geology courses were pointed out, but it was clarified that those are for the graduate catalog. However, it was noted that these types of statements can be added to a course description if a department so chooses. Another comment on Vibe asked if the Department of History checked with the Department of Special and Early Education regarding verification of nonduplication for new course History of Childhood. Smith has asked CLAS to do so. Gray made a motion, seconded by Kilaparti, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF LIBERAL ARTS AND SCIENCES #6 (10/24/12) PENDING BOT APPROVAL AND VERIFICATION OF NONDUPICATION FOR HIST 385 FROM DEPARTMENT OF SPECIAL AND EARLY EDUCATION. Motion passed unanimously.

College of Visual & Performing Arts #3

These materials need APASC and GEC approval. They are proposing a number of courses for the General Education program. It was clarified that while the college is submitting quite a few courses for the General Education program, they are courses that are already in the catalog, so the only catalog change before the CUC on this matter is adding the descriptions to the General Education section of the catalog.
The APASC items have yet to be discussed at APASC. Aase made a motion, seconded by Gomez-Vega, TO APPROVE THE UNDERGRADUATE CURRICULAR ITEMS IN THE COLLEGE OF VISUAL AND PERFORMING ARTS #3 (10/16/12) PENDING APASC AND GEC APPROVAL. Motion passed unanimously.

OLD BUSINESS

1. APPM changes/Definition of Minor. The revised definition of a minor was discussed. Birberick felt that the additional language addresses the issue of “double-dipping.” The purpose of the additional statement: “Credit hours applied to satisfy the requirements for a major may not be counted again as satisfying the requirements for interdisciplinary minors.” was discussed at length. Lenczewski explained that many of the courses required for interdisciplinary minors are also courses students have to take for their majors. The CUC discussed whether or not it would be OK for students to “double-dip.” It was clarified that a student can earn a minor within their own department, but not in the same program. Rohl stated that she is getting a minor in coaching along with her major in athletic training; both are in the same department. There was also a suggestion that the definition of a minor be part of a larger definition of majors, second major, second degree, minors, certificates, etc., that better illustrates the difference between them. Lenczewski agreed to the suggestions and an updated draft will be posted to Vibe for discussion between now and the next meeting in February. Rohl made a motion, seconded by Gray, TO TABLE THE DEFINITION OF THE MINOR. Motion passed unanimously.

2. CEDU #15. Tabled for a clearer set of attachments (nothing new at this time).

3. CUC Bylaws. This is the second reading. The CUC discussed the latest version of the changes to the CUC bylaws. Birberick suggested that under #7, “101” be deleted. Gray made a motion, seconded by Rohl, TO APPROVE THE REVISIONS TO THE CUC BYLAWS AS AMENDED (see Appendix A). Motion passed unanimously.

Meeting was adjourned by acclamation at 2:15 p.m.

The next meeting will be February 14, 2013, 12:30, Altgeld 225.

Respectfully submitted,

Donna M. Smith
COMMITTEE ON THE UNDERGRADUATE CURRICULUM (CUC)

Membership of CUC

A. The Committee on the Undergraduate Curriculum shall consist of the following members:

- One faculty representative, from the Undergraduate Coordinating Council (UCC), shall be chosen by the faculty of the Undergraduate Coordinating Council;

- One faculty representative shall be appointed by the curriculum committee of each undergraduate degree-granting college except the College of Liberal Arts and Sciences;

- Three faculty representatives shall be appointed by the curriculum committee of the College of Liberal Arts and Sciences, to represent the areas of the humanities, social sciences, and the other sciences;

- Two student members shall be selected by the Committee on the Undergraduate Curriculum (CUC) from nominees submitted by the student advisory committees of the undergraduate degree-granting colleges;

The vice provost responsible for undergraduate education shall be an ex officio, nonvoting member.

One member from the Committee on Initial Teacher Certification (CITC), appointed from that body, shall be a nonvoting member.

Faculty shall serve three-year staggered terms.

Students shall serve one-year terms.

The chair shall be elected by the voting members of the Committee on the Undergraduate Curriculum and shall serve a one-year renewable term beginning in the fall semester.

B. Duties

The Committee on the Undergraduate Curriculum shall have the responsibilities to:

1. Recommend general policies regarding the design of the undergraduate curriculum;

2. Receive decisions from the college curriculum committees regarding the substitution, alteration, addition, or deletion of undergraduate courses and programs not in the area of general education. All curriculum decisions involving course content, description, title, and number shall be reported to the UCC without committee action or comment unless they involve course duplication or overlap between colleges, cross-college concerns, or university standards;
3. Review and approve, or return to the originating department or college with appropriate comment, all curricula proposals involving course duplication or overlap between colleges, cross-college concerns, or university standards. Proposals approved by the committee shall be reported to the UCC;

4. Negotiate and resolve questions concerning course duplication or overlap between colleges, cross-college concerns, or university standards that arise from or concerning proposals for curriculum change;

5. Make recommendations regarding university policies governing programs of undergraduate study;

6. Review proposed new programs of undergraduate study and make recommendations to the UCC.

7. Serve as the curricular body for interdisciplinary undergraduate curricular material not located in an academic college or colleges, such as UNIV 101 and curricular offerings from the Division of International Programs and the Center for Black Studies. This responsibility includes usual curricular activity (new, revised, and deleted courses as well as other catalog changes), general education submissions/resubmissions, and review of these units’ overall curricular offerings.

Minutes and reports are to be distributed to all University Council members and copies are to be deposited in the university archives.
SECTION A – Recorded for inclusion in the Undergraduate Catalog

College Mission Statement

Create innovative academic and business experiences through partnerships among students, faculty, staff, alumni, and the business community.

College Learning Goals and Objectives

College of Business undergraduates are expected to achieve the following learning goals and objectives.

Our graduates will be effective business communicators:

- College of Business graduates will be able to create common business documents.
- College of Business graduates will be able to deliver a business presentation using the appropriate technology.
- College of Business graduates will be able to analyze business situations and respond with the appropriate channel, form, content, and format.

Our graduates will demonstrate business ethical awareness:

- College of Business graduates will be able to identify ethical issues, decision alternatives and the consequences of those alternatives, including the impact on stakeholders in business decision making.

Our graduates will demonstrate problem solving skills:

- College of Business graduates will be able to identify a wide array of business problems and their interdependencies.
- College of Business graduates will be able to analyze situations and identify relevant factors that contribute to business problems by using appropriate quantitative and qualitative tools.
- College of Business graduates will be able to generate a range of alternative solutions, analyze their feasibility and effectiveness, and recommend the optimal solution.
- College of Business graduates will be able to develop action plans to implement the recommended solutions.

Our graduates will demonstrate common business knowledge:

- College of Business graduates will be able to apply the theory of the management and control of money-related operations within a business.
College of Business graduates will be able to apply the theory and practice of the functions of Management.

College of Business graduates will be able to describe the process of planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create and keep customers.

College of Business graduates will be able to apply fundamental theory and manage processes to transform inputs into outputs for creating greater customer value.

College of Business graduates will be able to apply cross-functional concepts among the principles of business through the use of interdisciplinary exercises.

College of Business graduates will be able to identify the role and impact of information technology on organizations to support competitive advantage.

Career Compass

The Department of Accountancy offers … … and develop an understanding of ethical issues and professional conduct in business.

**Accountancy Learning Goals and Objectives**

Graduates of the Bachelor of Science in Accountancy program are expected to achieve these learning goals and objectives in addition to the College of Business Undergraduate Learning Goals and Objectives.

The NIU Bachelor of Science in Accountancy program provides essential study in accounting to prepare students at a level appropriate for entrance into the profession or graduate study.

1. **Our graduates will be technically competent accounting professionals.**
   
   Our students will demonstrate an understanding of financial accounting, accounting information systems, cost management, assurance services, and taxation concepts appropriate for entrance into the profession or graduate study.

2. **Our graduates will be effective problem-solvers.**
   
   Our students will:
   - utilize analytic skills to identify accounting problems, generate appropriate solutions, and make informed decisions;
   - apply technology tools to assist with problem solving.

3. **Our graduates will be effective communicators.**
   
   Our students will:
   - communicate in a professional manner;
   - demonstrate effective teamwork skills;
   - exhibit professional business conduct.
4. Our graduates will be ethical accounting professionals. Our students will demonstrate an understanding of relevant professional standards and codes of conduct.

Department Requirements

Department of Finance

Course revision: Page 79, 2012-13 Undergraduate Catalog

410. FINANCIAL MARKETS AND INVESTMENTS (3). … PRQ: UBUS 311 for all business majors; ACCY 306 for business administration majors, and MGMT majors, and MKTG majors, and OMIS majors. CRQ: ACCY 331 for ACCY majors.

Other catalog change: Page 77, 2012-13 Undergraduate Catalog

Department of Finance

For the first … …. All three of these professional certification programs have set global standards for excellence in the world of finance.

Finance Learning Goals and Objectives

Graduates of the Bachelor of Science in Finance program are expected to achieve these learning goals and objectives in addition to the College of Business Undergraduate Learning Goals and Objectives.

1. The graduate must be able to list and distinguish the functional areas of finance. In order to be a successful financial professional one must understand the role that one's particular analysis plays in the broader agenda of the finance department of a corporation, bank, or other institution. Successful demonstration of this student learning outcome would indicate that the graduate is aware of the implications and the contributions of each of the functional areas to the achievement of the overarching goals of the unit within which the graduate will be working.

2. The graduate must be able to apply analytical tools to solve problems. Many of the tasks that must be performed by the financial manager, even the routine tasks, can be complex. It is therefore important that the graduate be able to decompose a problem into its constituent parts and understand the implications of the interplay among these constituents in order to provide a solution to a particular question or to establish a systematic policy that can be applied in various similar situations.

3. The graduate must be able to apply statistical tools to solve problems. The concept of risk is fundamental to every functional area of the discipline of finance. The idea of risk, in turn, is inextricable from the mathematical concept of probability; with which the discipline of
statistics is concerned. It is therefore imperative that every graduate from the finance program have a firm grasp of statistics, and is able to apply the tools and analyses from statistics to problems related to finance.

4. **The graduate must understand and be able to apply accounting skills.**

   The discipline of finance originated as a subset of the field of accountancy. One could even say that in large part finance is the application of economic theory to accounting data. Very commonly the financial manager is using, as the basic fodder for his analyses, the output of accounting processes. Thus, it is important that every graduate acquire basic accounting skills and understand from whence the accounting data she is using is derived.

5. **The graduate must be able to use appropriate technology.**

   The practice of modern business, in general, and finance in particular requires that the student be competent with several technological implements. Primary among the tools that graduates must master is the financial calculator. The students must also be familiar with spreadsheet, presentation, and word processing applications.

6. **The graduate must demonstrate adequate written and oral communication skills.**

   Acquiring the skills necessary to perform advanced statistical and analytical analysis of a financial nature would be virtually useless if one were unable to communicate the results of such analysis to others. Thus it is necessary that graduates are able to adequately communicate in writing and with the spoken word.

7. **The graduate must demonstrate good interpersonal skills.**

   In addition to acquiring skills specific to the practice of financial management and oral and written communication is important that graduates are able to work with others in an appropriate manner.

411. ENTREPRENEURSHIP IN MICROFINANCE ORGANIZATIONS (3). … PRQ: Junior or senior standing MGMT 311 or consent of department.

Course revision: Page 82, 2012-13 Undergraduate Catalog

436. COMPENSATION AND BENEFITS ADMINISTRATION (3). Design and implementation application of organizational compensation systems aligned with organizational strategy. Integration
SECTION A – Recorded for inclusion in the Undergraduate Catalog

Consideration of internal equity requirements and external market considerations in wage system design through use of job evaluations and market surveys. Compensation as a means of effective recruitment, motivation, and retention of employees. Variable pay program design and execution. Benefits program design, cost containment, and program management. Performance appraisal processes and implementation of merit systems. Statutes affecting compensation practices (e.g., minimum wage laws, unemployment compensation, worker’s compensation). PRQ: Grade of C or better in MGMT 335 and MGMT 355.

Course revision: Page 82, 2012-13 Undergraduate Catalog

438. HUMAN RESOURCE PLANNING AND STAFFING (3). The design and application of recruitment and selection processes in organizations and retention systems for the effective management of human capital by line managers and HR professionals. Workforce planning and identification of work requirements. Identification of tools and processes that facilitate effective person-organization matching. Methods of job analysis used in determining requisite knowledge, skills, and abilities for job performance. Development of internal and external recruitment strategies. Choice and validation of selection devices. Calculation and analysis of selection utility. Recruitment and selection in both line and staff capacities. PRQ: Grade of C or better in MGMT 335 and MGMT 355.

Course revision: Page 82, 2012-13 Undergraduate Catalog

444. TRAINING AND DEVELOPMENT (3). Training needs analysis at organizational, task, and individual levels. Design, implementation, and evaluation of training and development systems. Evaluation of types of training media. Coordination and integration of employees’ development with organizational human resource planning. Broadscale organization development efforts. Focus on the development of talent through training and development initiatives. Discussion of theories and business cases related to training needs analysis, design, implementation, transfer, and evaluation; coaching and mentoring programs, career development, 360-degree feedback, succession planning, and other developmental interventions. Alignment of training and development programs with business strategy and human resource planning. PRQ: Grade of C or better in MGMT 335 and MGMT 355.

Course revision: Page 82, 2012-13 Undergraduate Catalog

448. EMPLOYMENT LAW (3). Legal environment and regulatory process in human resource management. Design and application of legal compliance systems in human resource management. Specific areas of study include management rights to discipline and discharge, employee rights to organize and engage in concerted activity, the legal framework of contract negotiations and administration, fair employment practices, and other selected legal influences. Employment contracts, workplace privacy issues, Title VII of the Civil Rights Act, disability discrimination, sexual harassment, work safety laws, benefits laws and union-management relations. PRQ: Grade of C or better in MGMT 335 and MGMT 355.

Other catalog change: Page 80, 2012-13 Undergraduate Catalog
Department of Management (MGMT)

The Department of Management offers B.S. degrees in management and in business administration, a minor in business innovation and entrepreneurship, and an undergraduate certificate in social entrepreneurship.

Major in Management (B.S.)

Students pursuing the B.S. degree in management select one of two emphases: leadership and management or human resource management. Students in the leadership and management emphasis are prepared for management trainee, supervisory, or other management positions in a variety of commercial enterprises. This emphasis also enhances students’ preparation for entrepreneurial and consulting endeavors. Students in the human resource management emphasis are prepared for entry-level positions as human resource generalists or specialists in a variety of firms.

Management Learning Goals and Objectives

Graduates of the Bachelor of Science in Management program are expected to demonstrate these learning goals and objectives in addition to the College of Business Undergraduate Learning Goals and Objectives. Graduates of our program will demonstrate the following:

1. Problem-Solving Competencies
   - Effectively carries out all steps of decision-making process
   - Applies management principles throughout process
   - Recognizes and thoughtfully considers ethical implications when making management decisions

2. Relationship Building Competencies
   - Participates actively in team projects and positively influences team outcomes
   - Builds effective relationships with peers, mentors, and business partners
   - Proactively manages interpersonal conflict
   - Respects and leverages diversity in backgrounds and perspectives

3. Communication Competencies
   - Produces professional business documents
   - Delivers professional presentations
   - Appropriately seeks and utilizes feedback for improvement

4. Career and Self-Leadership Competencies
   - Develops and acts upon a long-term career vision
   - Understands and leverages professional strengths
   - Understands and overcomes professional weaknesses
   - Actively seeks out opportunities to build professional expertise
   - Demonstrates professionalism in interaction with others

Requirements
Major in Business Administration (B.S.)

Students pursuing the B.S. degree in business administration will be prepared for a wide range of entry-level positions in a variety of organizations. The curriculum provides a broad-based education in all functional areas of business, including accounting, finance, management, marketing, and operations management and information systems.

Business Administration Learning Goals and Objectives

Graduates of the Bachelor of Science in Business Administration program are expected to achieve these learning goals and objectives in addition to the College of Business Undergraduate Learning Goals and Objectives.

The Business Administration program prepares graduates for a variety of entry-level positions in both the private and public business sectors. It is a generalist degree unlike other majors in the College of Business. Graduates of the Business Administration program are expected to demonstrate:

1. the ability to solve practical business problems;
2. the ability to identify and describe relationships among the primary business functional areas;
3. mastery of oral, written and verbal communication skills;
4. mastery of computer applications used in business environment;
5. awareness of ethical issues in business organizations.

Department of Marketing (MKTG)

The interactive marketing area of study offers students a curriculum to prepare for careers …

Marketing Learning Goals and Objectives

Graduates of the Bachelor of Science in Marketing program are expected to achieve these learning goals and objectives in addition to the College of Business Undergraduate Learning Goals and Objectives.

Graduates of the Marketing program will have:

1. The ability to apply marketing concepts. Graduates must demonstrate an understanding of the process of planning and executing the conception, pricing, promotion and distribution of ideas, goods, and services to attract and retain customers. Key marketing concepts include those related to product, pricing, promotion, distribution, sales, management, market and business environments, and customer relationships and target markets.

2. Mastery of problem solving and critical thinking skills. Graduates must demonstrate marketing related problem solving and critical thinking skills using qualitative and/or quantitative tools. Graduates will demonstrate the ability to develop feasible solutions within fluid and situation specific business environments. Specific skills to demonstrate problem solving and critical thinking skills include analyzing key factors leading to the identification of a problem/opportunity, conducting appropriate analyses to generate information, and utilizing generated information to develop suitable potential solutions to marketing problems based upon available resources and restrictions.

3. Mastery of written communication skills. Graduates must demonstrate the ability to collect, organize, interpret, and coherently present information in written format. Graduates will use proper grammar and language in developing business memos, formal business letters, business proposals, and business reports.
4. Mastery of oral communication skills. Graduates must demonstrate the ability to collect, organize, interpret, and coherently present information in an oral format. Graduates will use situation appropriate grammar, language, and professionalism to effectively convince and/or persuade an audience.

5. The ability to understand and effectively apply marketing metrics. Graduates must demonstrate an understanding of key marketing metrics and ability to utilize marketing metrics effectively in the analysis and solving of marketing problems. Specific skills graduates should master might include the ability to perform break-even point analysis, ratio analysis and other key metric analysis. Other key metrics analysis could include those relating to: 1) marketing planning and customers (e.g., market growth rates, market share, marketing cost per unit, customer acquisition costs, and return on investment); 2) product, price, and promotion offerings (e.g., new product purchase rates, advertising to sales ratios, gross rating points, response rates, conversion rates, costs per click, transactions per customer, and average transaction size); and 3) sales efforts (e.g., sales turnover rates, sales performance quotas, sales variances, and straight/ profit based commissions).

6. The ability to work effectively in teams. Graduates must possess the ability to work effectively with a group of other individuals to accomplish a mutual goal and produce high quality outcomes while recognizing the benefits and difficulties of working in teams. Specific skills graduates demonstrate include goal commitment, mutual respect, effective communication, flexibility and productivity.

7. Understanding of the global business environment. Graduates must demonstrate and understanding of the global forces that shape firms’ domestic and global marketing strategies. Such forces would include those related to political, legal, economic, cultural, and financial variables.

8. Ethical awareness. Graduates must demonstrate an awareness of and personal philosophy toward ethical practices.

Business Systems Analysis prepares students for entry-level positions as business systems . . .

Operations Management and Information Systems Learning Goals and Objectives

Graduates of the Bachelor of Science in Operations and Information Management program are expected to achieve these learning goals and objectives in addition to the College of Business Undergraduate Learning Goals and Objectives.

Graduates with a Bachelor's degree in Operations and Information Management will produce innovative solutions to deliver products and services more efficiently and effectively in today's business environment. Our graduates will have:

1. Processes: To Provide The Student With The Knowledge to Manage Business Processes
   - Conceptualization: The student will conceptualize business as a collection of processes.
   - Process Evaluation: The student will illustrate proficiency with business process evaluation.
   - Process Improvement: The student will exhibit the ability to improve business processes.

2. Technology: To Provide The Student With The Knowledge to Apply Information Technology Effectively
   - Hardware: The Student Will Display An Understanding of Hardware Technology
   - Software: The Student Will Display An Understanding of Software Technology
   - Data: The Student Will Display An Understanding of Data Technology
   - Networking: The Student Will Display An Understanding of Network Technology

3. Managing Projects: To Provide Students With Experience In Solving Business Problems.
   - Project Management: The student will demonstrate an ability to manage a project.
   - Project Integration: The student will be able to improve processes through the application of information technology appropriately.

Certificates of Undergraduate Study

Business Analytics Using SAP Software (12)

Coordinator: Steven Kispert, Department of Operations Management and Information Systems

This certificate is designed for all majors. Business Analytics is a broad category of technologies.
applications, and practices for gathering, storing, accessing, and analyzing enterprise data to support effective decision making. Business Analytics has been consistently ranked as one of top five technology priorities during the past several years by chief information officers in Gartner’s annual survey of IT executives. The market leader in business analytics application software is SAP. A certificate in Business Analytics Using SAP Software will allow students to understand how to run organizations more effectively by improving various business processes and using SAP technology.

Students must maintain good academic standing within the university, achieve a minimum grade of a C in each course applied toward the certificate, and complete all certificate course work within a period of four calendar years. Only courses taken at NIU may be applied toward the certificate. Courses used to satisfy the requirements for the certificate may only be applied toward an undergraduate degree with approval of the major department. Some courses may have prerequisites that are not part of the certificate curriculum.

Students interested in the certificate should apply no later than the beginning of their final semester prior to graduation, but they are urged to apply as soon as they complete UBUS 310 or OMIS 338 so the coordinator may advise students regarding course scheduling. Applications are available in the Department of Operations Management and Information Systems.

Pre-Admission Requirements:
- OMIS 338 – Principles of Operation Management (3)
- OR UBUS 310 – Business Core: Lecture (9)

Required Courses:
- OMIS 444 – Manufacturing Technology Management (3)
- OMIS 455 – Enterprise Resource Planning (3)
- OMIS 478 – Supply Chain Systems (3)
- OMIS 485 – Current Topics in Operations Management and Information Systems (SAP) (3)

LTCY 397.100. INDIVIDUALIZED COMPETENCY UNIT (1). Successful mastery by the student of a discrete professional competence in education, embodied in a standardized learning package, and measured by diagnostic as well as summative evaluations. Units monitored by members of the faculty. May be repeated to a maximum of 6 semester hours. S/U grading applies.

COLLEGE OF ENGINEERING AND ENGINEERING TECHNOLOGY

All University Section

Other Graduation Requirements

Other Catalog Change:
Candidates for the B.S. Degree in electrical, industrial, and mechanical engineering must earn a minimum of 18 semester hours of course work in humanities, arts, social sciences, and interdisciplinary areas. Students must consult with their faculty advisers to determine appropriate courses.

All engineering students must have their schedule reviewed, approved, and signed by their faculty advisers each semester. Any deviation from an approved course schedule may delay graduation.

Department of Electrical Engineering

Other Catalog Change: 2012-13 Undergraduate Catalog

Department of Electrical Engineering (ELE)

Mission

Electrical Engineering Program Educational Objectives

Program Learning Outcomes

The electrical engineering program is designed to provide our graduates with the:

A. Ability to apply their knowledge of mathematics, science, and engineering.
B. Ability to design and conduct experiments, as well as to analyze and interpret data.
C. Ability to design a system, component, or process to meet desired needs.
D. Ability to function on multi-disciplinary teams.
E. Ability to identify, formulate, and solve engineering problems.
F. Understanding of professional and ethical responsibility.
G. Ability to communicate effectively.
H. Broad education necessary to understand the impact of engineering solutions in a global and societal context.
I. Recognition of the need for, and an ability to engage in lifelong learning.
J. Knowledge of contemporary issues.
K. Ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

New Course: Undergraduate Catalog 2012-13

CIP CODE: 015.0000

445. INDUSTRIAL ENERGY UTILIZATION AND ENVIRONMENTAL IMPACTS (3). Organizational approaches to establish, implement, maintain and improve industrial energy and sustainability are discussed including ISO 50001 energy management systems and lean principles. These approaches apply to all aspects of energy use and enable an organization to take a systematic approach to achieving continual improvement of energy and environmental sustainability performance. The implementation of lean practices prevents pollution, reduces waste and highlights opportunities to reuse. How to define, develop and manage sustainable solutions including core concepts associated with leadership in energy and environmental design (LEED) and greenhouse gas inventory methods will also be covered. Topics will be discussed from an applied perspective of technology practices, management, responsibilities, and policies. PRQ: MATH 155 with a C or better, and CHEM 110 or CHEM 210.

Department of Technology (TECH)

Mission

The mission of the Department of Technology encompasses the transmission, expansion and application of
technological knowledge through teaching, research, and public service. The department prepares technically oriented professionals for leadership, management, and service positions in business, industry, education, and government. The major in technology includes emphases in electrical engineering technology, manufacturing engineering technology, nuclear engineering technology, and industrial technology. Instruction in these emphases seeks to improve productivity, safety, and the well being of society through combining scientific, engineering, and management knowledge with technical skills. The history of the Department of Technology reflects flexibility in the face of change and consistency in the pursuit of excellence to provide lifelong learning by recognized national and international leadership.

 Abilities such as leadership, practical applications, problem solving, creativity, intellectual curiosity, and a positive attitude toward lifelong learning are skills that are fundamental to the modern industrial community served by the Department of Technology. These needs are met in harmony with the university, educating traditional and non-traditional students through career preparation and enhancement programs. The faculty accomplishes these tasks using a variety of flexible, innovative, interesting, and creative course delivery systems.

 Maintaining a high level of professionalism, the faculty remains flexible in the face of change while balancing theory and practice. Thus, individuals are prepared for making a seamless transition to employment becoming productive, contributing members of society.

**Educational Objectives**

The Department undergraduate programs seek to educate our graduates with skills that will allow them to immediately enter the technical workforce and excel. Graduates of the program will:

- Acquire a well-balanced knowledge in the theory and practice within the areas of technology.
- Utilize laboratory based skills and modern engineering equipment used in industry.
- Provide effective, responsible, and articulate leadership in our complex society.
- Understand the need for obtaining new knowledge, including technological advances, and be capable of self-renewal, and life-long learning.
- Seek and apply creative and analytical insight in the solution of engineering-type problems.
- Provide technical communications in both oral and written forms, using many presentation styles.
- Function as part of an interdisciplinary team and manage projects effectively.

**Program Outcomes**

The department’s undergraduate program is designed to provide graduates with the ability to apply knowledge of mathematics, science, and engineering; the ability to design and conduct experiments, as well as analyze and interpret data; the ability to design a system, component, or process to meet design
needs; the ability to function on multidisciplinary teams; the ability to identify, formulate, and solve technical problems; an understanding of professional and ethical responsibility; the ability to communicate effectively; a broad education necessary to understand the impact of technology in a global and social context; a recognition of the need for, and an ability to engage in, lifelong learning; a knowledge of contemporary issues; and the ability to use the techniques, skills, and the modern engineering tools.

Early Childhood Studies Interdisciplinary Major

Before formally applying for admission to an emphasis in the major in early childhood studies, a student must have attained an overall GPA of at least 2.75 2.50 including transfer credit, successfully completed the ICTS Test of Academic Proficiency, provided written proof of a fingerprint-based criminal background check in compliance with NIU policy, and completed the following courses with a grade of C or better in each.

Additional prerequisites for emphasis in 04 certification with preschool special education approval (19)

Admission to teacher education takes place upon passing the ICTS Test of Academic Proficiency, having a cumulative GPA of at least 2.75 2.50, having a grade of C or better in all required courses completed after admission to the emphasis, and successful completion of the first professional semester. Retention in teacher education is contingent on maintaining a cumulative GPA of 2.75 2.50 or higher and having a grade of C or better in all required courses completed in subsequent semesters. Students must provide current verification of TB test prior to the first clinical course.

**Major in Textiles, Apparel, and Merchandising (B.S.)**

**Requirements in School (30-34)**

- Two of the following (6)
  - FCNS 272 - Merchandising Promotion (3)
  - FCNS 362 - Computer Applications for Textiles, Apparel, and Merchandising (3)
  - FCNS 369 - Fashion Design and Illustration (3)
  - FCNS 4501 - Workshop in Family, Consumer, and Nutrition Sciences (3)
  - FCNS 456 - Apparel Product Development (3)
  - FCNS 457 – Professional Development for Apparel Merchandising (3)
Emphasis 1. Hospitality Administration

Requirements in School (42-43)
- FCNS 302 - Lodging Operations (3)
- FCNS 303 - Hospitality Law (3)
- FCNS 316 - Hospitality Service (3)

Requirements outside School (34-36)
- ACCY 206 - Introductory Financial Accounting (3),
  OR ACCY 288 - Fundamentals of Accounting (3)
- *BIOS 103 - General Biology(3),
  OR *BIOS 104 - General Biology (4),
  OR *BIOS 109 - Human Biology(3)

Total Hours for Emphasis 1. Hospitality Administration: 79-82

---

Emphasis 2. Nutrition and Dietetics

This emphasis provides basic preparation for fulfillment of the baccalaureate requirements for careers in community nutrition programs, dietetics, or for graduate studies in these areas.

Completion of this emphasis satisfies the academic requirements of the Didactic Program in Dietetics (DPD) of the American Dietetic Association (ADA) Academy of Nutrition and Dietetics (the Academy).

The program is accredited by the Accreditation Council for Education of Nutrition and Dietetics (ACEND). Students seeking verification of DPD completion must maintain a grade point average (GPA) of at least 3.00 in DPD program courses (see adviser). In addition these students must achieve a grade of B or better in both of the following DPD courses: FCNS 310 and FCNS 415. Students are also strongly recommended to acquire work experience in patient care and food service.

To become a registered dietitian (R.D.), a student with DPD verification of academic requirements must complete an ACEND accredited supervised practice experience and pass the national registry examination.

Postbaccalaureate students

Postbaccalaureate students without degrees from an ACEND accredited nutrition program who request DPD verification by NIU must consult with the DPD director prior to NIU enrollment to
determine required course work. Additional course work may be required to earn a second baccalaureate degree. Students should consult with an academic adviser.

R.N.-B.S. in Nursing Completion Program
The R.N.-B.S. in nursing completion program is designed to award credit to registered nurses for their recent education and previous learning experiences in the field of nursing. Registered nurse degree-completion students must plan on a minimum of at least three semesters to complete the required nursing courses. See “Admission” for further information. Upon successful completion of the bridge course, NURS 302 or NURS 347, the R.N. student will receive 3-3 semester hours of credit for NURS 303, …

↓ Examinations for Medical-Surgical Nursing, Psychiatric Mental Health Nursing, and Pediatric and Obstetrical Nursing. In order to receive a baccalaureate degree, the R.N.-B.S. completion student is required to complete the following courses with a grade of C or better: NURS 302 or NURS 347; NURS 304, NURS 307, NURS 308, NURS 312, NURS 347, NURS 349X or UHHS 350; NURS 408, NURS 419, NURS 425, NURS 432, NURS 435, NURS 443 and NURS 453, or NURS 463, and NURS 488.

CIP Code:  26.01

302. MOLECULAR BIOLOGY (3). Fundamentals of molecular biology including the structure of DNA and RNA, mechanisms of DNA replication, transcription and translation, gene organization, genetic variation and repair, and regulation of gene expression. PRQ: BIOS 208, BIOS 209, BIOS 210, BIOS 211, CHEM 211, and CHEM 213.

303. CELL BIOLOGY (3). Cell structure and function including macromolecules, biochemistry, energy conversions, membranes, cellular organelles, cytoskeleton, signal transduction, and cell death. Not available for credit to students with previous credit in BIOS 300. PRQ: BIOS 208, BIOS 209, BIOS 210, BIOS 211, CHEM 211, and CHEM 213.

304. MOLECULAR CELL BIOLOGY LAB ORATORY (3). Laboratory course designed to give students experience in the broad range of modern experimental methods, procedures, and techniques required in the field. One hour of lecture and two 3-hour laboratory periods per week. PRQ or CRQ: BIOS 302 and BIOS 303.

410. FOOD AND INDUSTRIAL MICROBIOLOGY (3). Fundamental aspects of microorganisms (including viruses and prions) associated with foods and the food industry. Topics will include isolation and enumeration of microorganisms in food, microbial species that are important to the food industry, techniques for preventing and controlling microbial contamination of foods, and procedures for reducing health hazards associated with food contamination. PRQ: BIOS 313.

419. MICROBIAL SYSTEMATICS AND DIVERSITY (3). Understanding the metabolic diversity of
bacteria and archaea through selective culturing, isolation, and determinative testing. Through a weekly lecture and two three-hour laboratory sessions, students will cultivate and characterize microbial species of importance to the environment, human health, and the food and biofuel/bioenergy industries. PRQ: BIOS 313.

**Admission and Retention Requirements in the Discipline**

Students interested in pursuing certification … …. In addition, those seeking certification must complete the equivalent of the mathematics sequence MATH 211 and STAT 301, BIOS 300, BIOS 305, BIOS 313, BIOS 316, BIOS 317, BIOS 355, and BIOS 484, and BIOS 494, and a selection of elective biology courses … … departmental certification adviser.

↓
All potential candidates must
↓

- take and pass the ICTS Biology Content Test prior to applying to student teaching.

- take and pass the ICTS Assessment of Professional Teaching test before completion of the program.

**Professional Development Phase and Student Teaching**

↓

Students must satisfactorily complete a series of discipline-based pedagogy course work.

- BIOS 201X – The Professional Secondary Science Teacher (1)
- BIOS 301X – The Interdisciplinary Secondary Science Teacher (1)
- BIOS 402X – Interdisciplinary Teaching of Science in Secondary Education (3)
- BIOS 486 – Transition to the professional Biology Teacher (2)
- PHYS 494 – Use of Technology in Secondary Science Teaching (2)
- ETT 402 – Teaching and Learning with Technology (3)

**Additional Requirements**

↓

At this time, State requirements … … Illinois Certification Testing System, passage of the Assessment of Professional Teaching test and demonstration that … … meet certification requirements.

↓

**Degree with Biology Honors**

The degree Bachelor of Science with Honors in Biological Sciences will be awarded to students satisfying the following requirements.

During the first semester of the junior year the student will confer with the Department of Biological Sciences honors advisor regarding his or her intent to pursue the department honors degree. With the
approval of the honors advisor and a departmental faculty member under whom the student will engage in independent study, the following are required in the sequence indicated.

Successful completion of 1-3 semester hours of BIOS 370, Directed Research in Biology, during the second semester of the junior year.

Recommendation of the honors advisor and the faculty research supervisor to continue toward the degree with honors. The student must maintain a GPA of at least 3.5 in all departmental and extradepartmental requirements.

Successful completion of 6 semester hours (taken over the two semesters of the senior year) of BIOS 495H, Honors Biology Directed Research, culminating in a satisfactory research paper.

1) Maintain a GPA of at least 3.5 in all departmental BIOS, CHEM, MATH, and PHYS course requirements;

2) Gain approval for admission into the program from the Department of Biological Sciences Honors Advisor, as well as the faculty member under whom the student will engage in research;

3) Complete BIOS 370, Directed Research in Biology and 6 semester hours of BIOS 495, Honors Biology Directed Research under the faculty member’s supervision;

4) Present and explain the results of the honors project at either the departmental or university undergraduate research symposium; and,

5) Submit an approved senior thesis to the departmental honors advisor.

Collectively, a maximum of 6 hours of credit (9 in the case of students admitted to the department honors program) in BIOS 370, BIOS 399H, BIOS 490, BIOS 495, BIOS 495H, and BIOS 499H may be applied to the major.

Department of Chemistry and Biochemistry

New Courses

Page 214, 2012-13 Undergraduate Catalog

CIP Code: 40.05

333. GENERAL ORGANIC LABORATORY II (1). Continuation of CHEM 332. laboratory techniques. Not available for credit for emphasis 1 or emphasis 2 majors. One 3-hour period a week. CRQ: CHEM 331 or CHEM 337.

339. ORGANIC CHEMISTRY LABORATORY II (1). Continuation of CHEM 338. One 3-hour period
a week. Not available for credit for those having credit for CHEM 333. CRQ: CHEM 330 or CHEM 336.

New Course: Page 214, 2012-13 Undergraduate Catalog

CIP Code: 40.05

401. THIRD CLINICAL HIGH SCHOOL/MIDDLE SCHOOL EXPERIENCE IN CHEMISTRY (2).
Discipline-based early clinical experience for students seeking teacher certification in chemistry and
general science. Observations, evaluation, methods, and problems practicum in subject discipline teaching.
Includes a minimum of 40 clock hours of supervised and formally evaluated experiences. PRQ: Consent of
department. CRQ: CHEM 495X.

Course Revisions: Page 214-215, 2012-13 Undergraduate Catalog

210. GENERAL CHEMISTRY I (3). Fundamental laws … …. Three hours of lectures and … …. Not
available for credit to students with credit in CHEM 210. CRQ: CHEM 212.

GEC 11/15/12

211. GENERAL CHEMISTRY II (3). Continuation of CHEM 210 … …. Three hours of lectures and one
recitation per week. Not available for credit to students with credit in CHEM 211. PRQ: CHEM 210 and
CHEM 212. CRQ: CHEM 213.

GEC 11/15/12

212. GENERAL CHEMISTRY LABORATORY I (1). Designed to accompany CHEM 210F. One 3-hour
period per week. Not available for credit to students with credit in CHEM 210. CRQ: CHEM 210.

GEC 11/15/12

213. GENERAL CHEMISTRY LABORATORY II (1). Designed to accompany CHEM 211. One 3-hour
period per week. Not available for credit to students with credit in CHEM 214. CRQ: CHEM 211.

GEC 11/15/12

330. GENERAL ORGANIC CHEMISTRY I (3). First semester of a two-semester course … …. Three
hours of lectures a week. PRQ: CHEM 211 and CHEM 213.

331. GENERAL ORGANIC CHEMISTRY II (3). Second semester of … …. Three hours of lectures a
week. PRQ: CHEM 330.

332. GENERAL ORGANIC LABORATORY I (2). One-semester course in Basic organic laboratory
techniques, including compound synthesis and analysis of products. Not available for credit for emphasis I
or emphasis majors. One 3-hour periods a week. CRQ: CHEM 330 or CHEM 336.

336. ORGANIC CHEMISTRY I (3). Modern structural … of department. Three hours of lecture a week. PRQ: CHEM 211 and CHEM 213.

337. ORGANIC CHEMISTRY II (3). Continuation of CHEM 336. Chemistry majors only or consent of department. Three hours of lecture a week. PRQ: CHEM 336.

338. ORGANIC CHEMISTRY LABORATORY I (2). Introduction to modern laboratory techniques in organic chemistry, including compound synthesis and analysis of products, for students interested in careers in professional chemistry and biochemistry. One 3-hour periods a week. Not available for credit for those having credit for CHEM 332. CRQ: CHEM 330 or CHEM 336.

339–340. ADVANCED ORGANIC CHEMISTRY LABORATORY II (2). Continuation of CHEM 338. Lab activities involving multi-step synthetic reactions, advanced laboratory techniques, and use of spectroscopic methods to identify products from organic reactions. Two 3-hour periods a week. PRQ: CHEM 338 or consent of department.

496. TRANSITION TO THE PROFESSIONAL CHEMISTRY TEACHER (4). A transitioning experience … be limited to, the teacher performance assessment, the electronic portfolio, a professional development plan, and a resume. CRQ: CHEM 497 or consent of department.

497. STUDENT TEACHING (SECONDARY) IN CHEMISTRY/PHYSICAL SCIENCES (2–4). Student teaching. PRQ: CHEM 495X and consent of the department.

SECTION A – Recorded for inclusion in the Undergraduate Catalog p. 50 of 74

Teacher Certification

Students interested in emphasis 2 and 3 must declare their interest in teacher certification with the discipline coordinator in the Department of Chemistry and Biochemistry at their earliest opportunity, should consult with the departmental certification advisor as soon as possible and also refer to the "Teacher Certification Requirements" section of this catalog. Undergraduate chemistry majors may apply for admission to teacher certification in emphasis 3 at the end of the sophomore year.

Please note: Graduate students and students who already possess the baccalaureate or higher degree and wish to pursue certification and/or endorsement with or without becoming a candidate for a degree, should apply for admission to the coordinator of chemistry education as early as possible.

Students completing these emphases must also obtain a secondary endorsement in at least one subject other than chemistry. It is strongly recommended that students completing this emphasis obtain a secondary endorsement in at least one subject other than chemistry. Graduate students seeking an endorsement in chemistry who already have a Standard High School Certificate (6-12) in the state of Illinois must complete 24 semester hours in the physical sciences with at least 10 semester hours in chemistry including 4 semester hours in laboratory work. Postbaccalaureate students who wish to pursue certification without becoming a candidate for a degree should consult with the discipline coordinator in the Department of Chemistry and Biochemistry at early as possible.

Admission Requirements

To be admitted to the certification program, students in emphasis 2 and 3 must have

- completed at least 20 clock hours of approved early clinical experiences, and
- submitted an application and obtained approval from the discipline coordinator in the Department of Chemistry and Biochemistry, and
- passed the ICTS Test of Academic Proficiency.

Retention Requirements

Students admitted to the certification program must

- Students pursuing a degree in secondary science teacher certification must have a grade of C or better in all course work specifically required for certification. Higher number courses may be substituted if approved by the department. and
- Complete a satisfactory … … Chemistry and Biochemistry; and,
prior to student teaching (for emphasis 3, general science teaching), complete 8 semester hours of biological sciences, including at least 3 semester hours in courses numbered 200 and above.

- take and pass the ICTS Chemistry Content Test prior to applying to student teaching; and,
- take and pass the ICTS Assessment of Professional Teaching test before completion of the program.

General Requirements and Information

Current requirements include the possession of an appropriate baccalaureate degree from an accredited institution, a minimum of 32 hours in the field, pre-student teaching clinical experiences at the 6-12 level or proof of teaching experience at the 6-12 level, student teaching or an approved teaching experience, passage of the basic skills and secondary certificate subject matter examinations of the Illinois Certification Testing System, and demonstration that the candidate has met science teaching standards. At this time, State requirements include the possession of an appropriate baccalaureate degree from an accredited institution, a minimum of 32 semester hours in the field, pre-student teaching, clinical experiences at the 6-12 level or proof of teaching experience at the 6-12 level, student teaching or an approved teaching experience, passage of the Test of Academic Proficiency and secondary certification subject matter examinations of the Illinois Certification Testing System, passage of the Assessment of Professional teaching test, and demonstration that the candidate has met teaching standards for the chemistry or environmental science teacher.

Degree with Honors

The B.S. degree with honors in chemistry will be awarded to students who have a minimum 3.20 overall GPA and a 3.50 GPA in all requirements, both in and outside the department, and who complete 13 semester hours of honors chemistry courses numbered CHEM 325 and above (not including CHEM 370), including CHEM 499 (2-4), and present a satisfactory senior thesis. The honors chemistry course work must include CHEM 499 (2-4 credits) and the presentation of a capstone thesis.

300. ADVANCED ESSAY COMPOSITION (3).
A. General. Writing expressive, persuasive, and informative essays and developing appropriate stylistic and organizational techniques. Open to majors, minors, and non-majors.
B. Pre-Law. Designed to meet the special writing needs of the pre-law student.
C. English Teacher Certification: Designed to meet the special writing needs of students seeking certification to teach in the secondary schools.

Teacher Certification Courses

479. THE TEACHING OF LITERATURE (3). … … PRQ: ENGL 200, 404, 9 semester hours of literature at the 300 and 400 level, and ENGL 404, or consent of department. CRQ: ILAS 301.

Environmental Studies

Major in Environmental Studies (B.A. or B.S.)
↓
Emphasis 1. Biodiversity and Environmental Restoration (34-41)
SECTION A – Recorded for inclusion in the Undergraduate Catalog

Select two of the following methods-based courses (6-8)
- CHEM 427 - Environmental Chemistry (3)
- ENVS 409/BIOS 409X/GEOL 409X – Water Quality (4)

Emphasis 2. Energy Studies (33)
- GEOG 315X/ENVS 315X – Geography of Energy (3)
- GEOG 453 – Environmental Management (3)

Select three of the following applications and natural science-based courses (9)
- BIOS 106 – Environmental Biology (3)
- CHEM 427 – Environmental Chemistry (3)

Select one of the following law/policy courses (3)
- GEOG 453 – Environmental Management (3)
- POLS 220 – Introduction to Public Policy (3)

Emphasis 3. Human Experience (33-34)
- Requirements outside Environmental Studies (15)
- Select one of the following policy courses (3)
  - GEOG 453 – Environmental Management (3)
  - PHIL 361 – Social and Political Philosophy (3)

Electives (15)
- Select at least two of the following social science courses (6)
  - ANTH 301 – American Culture Credits: 3
  - ANTH 463/ENVS 463X – Extinction: Where the Wild Things Were (3)
- ANTH 466 - Hunters-Gatherers and the Transition to Food Production (3)
- ANTH 467 – Applied Anthropology Credits: 3
- ANTH 491 – Current Topics in Anthropology (3)
- CLCE 429 – International NGOs and Globalization (3)
- ECON 386 – Environmental Economics (3)
- GEOG 303 – Water Resources and the Environment (3)
- GEOG 459 – Introduction to Geographic Information Systems (3)
- GEOG 430 – Population Geography (3)
- GEOG 453 – Environmental Management (3)
SECTION A – Recorded for inclusion in the Undergraduate Catalog

GEOG 455 – Land-Use Planning (3)

Emphasis 4. Environmental Policy (30-40)

Requirements outside Environmental Studies (9)
Select one of the following policy/social science courses (3)
  ANTH 425 – Environment and Anthropology (3)
  ANTH 432 – Nature and the Environment Across Cultures (3)
  CLCE 429/ANTH 429X – International NGOs and Globalization (3)

ELECTIVES (21-22)
Select at least two of the following policy courses (6-9)
  ECON 386 – Environmental Economics (3)
  GEOG 453 – Environmental Management (3)

Select at least one of the following science, engineering, and technology courses (3-4)

Chem 427 – Environmental Chemistry (3)

GEOG 315X/ENVS 315X – Geography of Energy (3)

Emphasis 5. Non-Government Organization (33-34)
Select three of the following foundations courses (9)
  ANTH 329 – Anthropology and Contemporary World Problems (3)

CLCE 350 – Community Organization in the Digital World (3)
  CLCE 429 – International NGOs and Globalization (3)
  COMS 362 – Intercultural Communication (3)
  GEOG 453 – Environmental Management (3)

PSPA 401 – Philanthropy and Volunteerism (3)
Select one of the following science, engineering, and technology courses (3-4)
  BIOS 106 – Environmental Biology (3)

Chem 427 – Environmental Chemistry (3)

GEOG 315X/ENVS 315X – Geography of Energy (3)

Emphasis 6. Water (33-37)

Requirements outside Environmental Studies (9)
SECTION A – Recorded for inclusion in the Undergraduate Catalog

Select three of the following conceptually-based courses (9-11)
- ANTH 343/ENVS 343X – Extinction: Where the Wild Things Were (3)
- CHEM 427 – Environmental Chemistry (3)

Select three of the following methods-based courses (9-11)
- GEOG 302 – Soil Science (4)
- GEOG 359 – Introduction to GIS (Geographic Information Systems) (3)

Select one of the following engineering/technology-based courses (3)
- GEOG 315X/ENVS 315X – Geography of Energy (3)

ARTD 215. DIGITAL PHOTOGRAPHY FOR NON-MAJORS (3). Introductory level digital photography class for non-majors. This course will focus on digital imaging techniques, emphasizing the use of the camera and computer as a creative tool. Students will learn the essentials of digital photographic equipment and techniques as well as photographic image-making history, theory and practice. Students will learn instruction in how to shoot, edit, manipulate, and critique photographs. A digital camera with manual focus and exposure controls is required.

CIP CODE: 50.0701

ARTE 109. STRATEGIC VISUAL THINKING (3) This course investigates the role of visual design in the presentation of quantitative information in order to promote vigorous dialogue around the interactions of complex data streams, and this fosters robust decision-making. The course provides an introduction to social science research through data collection, quantitative analysis, and interpretation as students complete their own original survey research.

CIP CODE: 50.0701

ARTS 471. SPECIAL TOPICS IN FIBER (4 or 8). Emphasis on specific topics or processes within the
fiber curriculum. Special topics include Artist Books, Japanese Papermaking, T-Shirt, Body Boundaries, Garment as Metaphor, and others. May be repeated to maximum of 36 semester hours.

**Course Revisions**

**ARTD 201. INTRODUCTION TO VISUAL COMMUNICATION (4).** Introduces composition, … … area of study. PRQ: Students must meet the limited admissions requirements for the Visual Communication area of study. ART 100 and ART 102 with a minimum cumulative GPA of 2.50, or CRQ: ART 100 and ART 102 with a minimum of 12 semester hours of college-level course work, and a minimum cumulative GPA of 2.50.

**ARTD 313. BEGINNING PHOTOGRAPHY (4).** Designed to … … art medium. PRQ: Consent of school Art major or minor

**ARTD 355. CRITICAL TOPICS IN ART AND TIME (4).** Seminar on theoretical, social, and aesthetic issues in interactive and computer-based 4-D art. PRQ: Successful completion of sophomore portfolio review in photography, time arts, or visual communication, any area in the School of Art, or consent of school.

**ARTD 405. PROFESSIONAL PRACTICES IN DESIGN (4).** Investigation of … … and responsibilities. PRQ: ARTD 212 or successful completion of review in the Design and Media Arts division, or consent of school.

**ARTD 412. ADVANCED VISUAL COMMUNICATION II (4).** Advanced studies … … in series. PRQ: ARTD 411, CRQ: ARTD 406.

**ARTE 200. TAP Prep Course is required for any student with a score of 19 or below on the ACT.

**ARTE 342. INTRODUCTION TO ART AND DESIGN EDUCATION: CONTENT AND CLINICAL EXPERIENCE AT THE ELEMENTARY LEVEL (4).** … … PRQ: Proof of freedom from tuberculosis, successful completion of the Illinois Test of Basic Skills Test and Academic Proficiency, and the criminal background check required for certification in a Composite ACT Plus Writing score of at least 22; or a composite (mathematics and critical reading) SAT score of 1030; ART 100 and ART 101 and ART 102 and ART 103 and ARTH 291 and 292; and minimum 2.75 cumulative GPA.

**ARTH 499H. SENIOR THESIS (3).** … …

ARTS 327. BEGINNING ILLUSTRATION L(4). … …

ARTS 341. FUNDAMENTALS OF BEGINNING CERAMICS (4). … …

ARTS 346A. INTERMEDIATE HAND-BUILDING CERAMICS (4 or 8). Use of hand-building techniques for the exploration of form in individually assigned problems. Laboratory experience in clay and glaze testing, studio clay mixing, and kiln firing. Studio and lecture. May be repeated to a maximum of 8 semester hours. PRQ: ARTS 341 or consent of school.

ARTS 346B. INTERMEDIATE WHEEL-THROWING CERAMICS (4 or 8). Exploration of form and texture through individually assigned problems using wheel-throwing techniques. Laboratory experience in clay and glaze testing, studio clay mixing, and kiln firing. Studio and lecture. May be repeated to a maximum of 8 semester hours. PRQ: ARTS 341 or consent of school.

ARTS 368. PAPERMAKING INTRODUCTION TO FIBER: PAPERMAKING (4). Exploration of … … of materials. PRQ: ART 103 or consent of school.

ARTS 371. WEAVING 2-D/3-D WOVEN CONSTRUCTION (4). Exploration of two- and four-harness weaving with emphasis on cloth as an expressive medium. Studio, lecture, readings, and discussion of the meaning/context of cloth. PRQ: ART 103 or consent of school. Students explore a range of techniques for making two- and 3-Dimensional work. Technical information includes pattern and pictorial weaving, textile dyeing/printing/painting, and 3-D woven construction processes. After initial experimentation with techniques, students are encouraged to push the boundaries of the media, using both traditional and experimental materials. Students are challenged to explore the unique conceptual principles of textiles: the sculptural potential of fabric construction, the meaning and metaphors of material, and the narrative capacity of cloth.

ARTS 372. SURFACE EXPLORATION OF FABRIC INTRODUCTION TO FIBER: PRINT DYE PAINT STITCH (4). … …

ARTS 374. 3D FORMS IN FIBER INSTALLATION AND FIBER SCULPTURE (4) Exploration of materials and processes for creating installation work and three-dimensional forms in the fiber tradition. Wrapping, coiling, knotting, looping, basic papermaking, and the notion of skins (gut, paper pulp, latex) and sculptural fabric techniques will be explored. Studio, lecture, readings, and discussion of the meaning/context of materials. PRQ: ART 103 or consent of school. The concept of installation includes relationships of objects and site-specific work, and will examine a range of spaces. Concepts are developed through research, readings, material investigations, and developments of three-dimensional studies. When taught in the spring semester, the class will focus on object construction; in fall semester, the focus is directed to installation concepts and working in a range of public and private spaces.

COLLEGE OF BUSINESS

Department of Management

Minor in Social Entrepreneurship (21-30)

The minor will help students develop the entrepreneurial skills related to the unique features of building and sustaining ventures to generate economic, social, and environmental change. This minor in social entrepreneurship is available to NIU undergraduate students in good academic standing. Students with a major in Management may take a minor in social entrepreneurship. Retention in the social entrepreneurship minor is based on a grade of C or better in all courses in the minor.

Students must complete an application for the social entrepreneurship minor. Applications and deadline dates are available in the Department of Management.

Requirements

COLLEGE OF EDUCATION

Department of Special and Early Education

All University Section

Limited Admissions and Limited Retention

Early Childhood Studies Interdisciplinary Major

Before formally applying for admission to an emphasis in the major in early childhood studies, a student must have attained an overall GPA of at least 2.75 2.50 including transfer credit, successfully completed the ICTS Test of Academic Proficiency, provided written proof of a fingerprint-based criminal background check in compliance with NIU policy, and completed the following courses with a grade of C or better in each.

Additional prerequisites for emphasis in 04 certification with preschool special education approval (19)

Admission to teacher education takes place upon passing the ICTS Test of Academic Proficiency, having a cumulative GPA of at least 2.75 2.50, having a grade of C or better in all required courses completed after admission to the emphasis, and successful completion of the first professional semester. Retention in teacher education is contingent on maintaining a cumulative GPA of 2.75 2.50 or higher and having a grade of C or better in all required courses completed in subsequent semesters. Students must provide current verification of TB test prior to the first clinical course.

Department of Special and Early Education
SECTION B – Recorded, but further approval needed before inclusion in the Undergraduate Catalog

Interdisciplinary Major in Early Childhood Studies (B.S.)

Students must be admitted to the early childhood studies program before they can enroll in any of the professional course work. To continue to enroll, students must maintain a minimum overall GPA of 2.75 or 2.50.

COLLEGE OF HEALTH AND HUMAN SCIENCES

College of Health and Human Sciences

Where appropriate, programs in the college meet the requirements of state and national accrediting agencies. Professionally accredited university undergraduate programs/emphases include clinical medical laboratory sciences (National Accrediting Agency for Clinical Laboratory Sciences) . . . .

Clinical Medical Laboratory Sciences Major

The School of Allied Health and Communicative Disorders limits the total number of students admitted to the clinical medical laboratory sciences major depending upon resources available.

To be considered for admission to the clinical medical laboratory sciences major, students must be admitted to NIU and have completed or be in the process of completing a minimum of 11 of the prerequisite courses listed below.

All students who meet the above requirements will be required to submit a completed clinical medical laboratory sciences program application; provide a brief written goal statement and explanation of why the clinical medical laboratory
Students interested in the CMLS major may access application materials on the website: http://www.chhs.niu.edu/cls/. Applicants must submit the required materials by March 1. Notification of clinical medical laboratory sciences program admission status will be made by April 1. Additional applications may be considered before June 15 based upon space availability.

School of Allied Health and Communicative Disorders

School of Allied Health and Communicative Disorders (AHCD, AHLS, AHPT, AHRS, COMD)

Admission to the major in clinical medical laboratory sciences is limited. See “Limited Admissions and Limited Retention Requirements” in the front part of this catalog.

The School of Allied Health and Communicative Disorders offers majors in clinical medical laboratory sciences (B.S.),

Clinical Medical Laboratory Sciences

General Information

Admission to the majors in clinical medical laboratory sciences is limited. See “Limited Admissions and Limited Retention Requirements” in the front part of this catalog.

The clinical medical laboratory sciences program is accredited … .....

Once admitted into the clinical medical laboratory sciences program, a student must maintain a grade of C or better in required courses in the school or be subject to dismissal from the program.

Completion of a 3-dose series of Hepatitis B immunization unless proof of immunization is provided. The series should begin as soon as the new transfer student is accepted into the clinical medical laboratory sciences major or before students at NIU enroll in AHLS 211, Introduction to the Clinical Medical Laboratory Sciences;
transportation and room/board for clinical courses.

Before enrolling in AHLS 470, students must have completed all other university and program requirements for graduation. Additionally, they must have been admitted to the clinical medical laboratory sciences major and all AHLS 300-level courses must have been completed with a grade of C or better. AHLS 300- and 400-level designated courses are open only to students admitted to the clinical medical laboratory sciences program and are current majors.

**B.S. Degree Completion for Clinical/Medical Laboratory Technicians**

Individuals who are certified as clinical or medical laboratory technicians and who desire to complete the requirements for the B.S. in clinical or medical laboratory sciences are advised to contact the program coordinator for specific information.

**Major in Clinical Medical Laboratory Sciences (B.S.)**

The clinical medical laboratory sciences program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

**Requirements in School (63-67)**

**Recommendations**

To become certified as a clinical medical laboratory scientist, the graduate of the program must be examined on professional competence by a national certifying body. Completion of the examination, however, is not a prerequisite for the B.S. degree.

**Minor in Communicative Disorders (21)**

Health Sciences and Clinical Medical Laboratory Sciences majors are eligible to complete this minor.

**Minor in Deafness Rehabilitation (18)**

Health Sciences Emphasis 1 and Emphasis 2, Clinical Medical Laboratory Sciences, and COMD majors are eligible to complete this minor.

Limited Admissions and Limited Retention Requirements

Visual Communication Area of Study
(School of Art)

All applicants must be admitted to the university and have a minimum overall GPA of 2.50 on a 4.00 scale, including transfer courses. Admission to the Visual Communication program is limited. The total number of students accepted will be determined by available resources on a year by year basis. Successful candidates must meet the following conditions: i) be admitted to the university, ii) have a minimum overall GPA of 2.50 on a 4.00 scale for all courses including transfer courses, iii) interview with the Visual Communication faculty selection committee, iv) submit a portfolio of work that meets the admission criteria for the program. The interview and portfolio will be used to determine which students are admitted. Visual Communication applicants should check the School of Art website or contact the School of Art Main Office, Art Building 216 for detailed information.

Major in Art and Design Education (B.S.Ed.)

Special Requirements
Students must receive a grade of C or better in ARTE 342, ARTE 344, ARTE 345, and ARTE 463 in all major course requirements. Students must have a minimum 2.75 GPA in all NIU and transfer courses to enroll in Art Education courses. They must have a minimum 2.50 GPA in all NIU courses to obtain a teaching certificate. These standards apply to all art education majors and initial certification candidates.
