The OMRON Scholarship
Northern Illinois University
College of Engineering and Engineering Technology (CEET)

The College of Engineering and Engineering Technology recognizes students who have achieved a strong academic record, and who are interested in pursuing a degree in electrical engineering. The OMRON Foundation Electrical Engineering Scholarship is awarded to full-time students of Junior or Senior academic standing.

THE AWARD

The scholarship is valued at $1,000 each ($500 per semester) for one academic year (fall and spring semester, does not include summer). Prior recipients are eligible to apply for additional awards in subsequent years. (Please note: waivers are not applicable toward Study Abroad coursework). Amount awarded is applicable only toward tuition and cannot exceed the cost of tuition.

ELIGIBILITY

1. Admitted to NIU’s College of Engineering and Engineering Technology as:
   a. an undergraduate student, full-time status with a minimum cumulative NIU GPA of 2.0+.
2. Preference given to students majoring in Electrical Engineering.
3. Preference given to juniors and seniors.
4. Financial need will be a primary consideration for selection.

REQUIREMENTS

1. Students must be enrolled as a full-time student in the NIU College of Engineering & Engineering Technology in each semester of attendance for fall and spring semesters.
2. Students must be enrolled as an undergraduate in each semester of attendance for fall and spring semesters with a minimum of 12 semester hours.
3. Students must maintain a cumulative grade point average of 2.0 or above in all NIU course work.
4. Students must remain a declared major in the College of Engineering and Engineering Technology for both the fall and spring semesters.
5. Prior recipients are eligible to apply for an additional year of award.

DONOR

Since its inception, Omron Foundation, Inc. (OFI) has endeavored to improve education on an elementary level through college with a focus on engineering, science, mathematics and technology. The Omron Foundation has established an endowed electrical engineering scholarship at Northern Illinois University including establishment of the Omron Robotics and Mechatronics Laboratory at the university’s College of Engineering and Engineering Technology in April, 2013.
