

## **Open Access Policy for NIU-produced published journal articles**

In accordance with State of Illinois Public Act 098-0295, the Open Access to Research Articles Act, all Illinois public universities are required to make research produced by its faculty accessible to all.

Each faculty member is strongly encouraged to retain all copyright rights for all scholarly articles that they publish or produce.

Each faculty member grants Northern Illinois University permission to make available his or her scholarly articles and grants Northern Illinois University license to exercise any and all rights under copyright relating to each of his or her scholarly articles provided these are not sold.

This policy applies to all scholarly articles authored or co-authored while the person is a member of the faculty except for any articles published before the adoption of this policy and any articles for which the faculty member entered into an incompatible licensing or assignment agreement before the adoption of this policy. This policy does not transfer copyright ownership, which remains with faculty authors under existing Northern Illinois University policy, unless the author chooses to transfer the copyright to a publisher.

Application of the license will be waived for a particular article or access delayed for a specified period of time upon expressed direction by a Faculty member to Northern Illinois University.

To assist the university in disseminating and archiving the articles, each faculty member will provide an electronic copy of his or her final version of the article to Northern Illinois University by the date of its publication. Northern Illinois University will make the articles available in an open access repository, Huskie Commons. When appropriate, a faculty member may instead notify Northern Illinois University if the article will be freely available in another repository or as an open-access publication.

The University Council, in consultation with the Office of the Executive Vice President and Provost, will review the policy within three years, and present a report to the faculty. The faculty calls upon the University Council and Northern Illinois University to develop and monitor mechanisms that would render implementation and compliance with the policy as convenient for the faculty as possible.
