

Registering for NIUvisitor Wi-Fi access

Please note that NIUvisitor Wi-Fi is intended for true University visitors only. If you have a Z-ID or A-ID and capable device, connect to NIUwireless network using your NIU credentials instead of NIUvisitor.

For Visitor Registration:

STEP 1:

- Connect to the 'NIUvisitor' Wi-Fi network from the list of available networks

STEP 2:

- A browser window will automatically popup and open the sign in page as shown below. If this is the first time connecting to the 'NIUvisitor' or if it has already been 5 days after registration, click on 'Register for visitor access' and proceed to step 3.
- If you are returning to this page within 5 days of your last registration, please use the username and password sent to your personal email address provided during registration to login to the visitor network.

The NIUvisitor network is for **NIU visitors** only.

If you're a **current NIU student or employee**, close this window and connect to NIUWireless.

You have to register as a visitor before you can connect to **NIUvisitor**. Your **NIUvisitor** registration will be valid for five days. Sessions that are inactive for more than two hours will require you to login again.

GUEST USERNAME:

GUEST PASSWORD:

[By signing on or registering you agree to the Acceptable Use Policy.](#)

STEP 4:

- After the details are filled, the account is created, and credentials are sent to the email address provided and is valid for 5 days to re-login.
- A visitor can use these credentials on a maximum of 3 devices to access visitor Wi-Fi network.
- Once connected, the device can stay on the network in idle state for 2 hours without needing to enter the credentials. After 2 hours of idle, credentials might be required to login back to the visitor network.

STEP 5:

- As a last step, 'Acceptable Use Policy' need to be accepted to continue the access to the visitor network.
