Parents and Teachers:
Looking for fun ways to teach children about finances? Join Tammy Batson, NIU Economics Instructor and Co-Director of the Center for Economic Education, to discuss books, activities, and lesson plans you can use to teach economics and financial literacy to children. Related books will be on display and available for check out.

Bring Your Kids!
While you learn, your children can explore economics and financial concepts through a story book and art project hosted by the Economics Student Association.
