

S.I. Statement for MATH “P” courses.

As a resource to success in MATH 108, 109, and 110P, your attendance and participation in Supplemental Instruction is required. CHANCE, ACCESS and the Math Department, in collaboration, provide you with the opportunity to utilize Supplemental Instruction (S.I.). S.I. Leaders will provide weekly copies of signed S.I. session attendance sheets to all CHANCE counselors for verification of your participation in the S.I. program. In addition, all S.I. Leaders hold 3 hours of office time weekly for further assistance. We strongly encourage you to use the additional S.I. office hours for your mathematics course.
