PUT ON YOUR MASK.

We wear because we care.

• Wear your mask because you care about your fellow Huskies.
• Your mask should fit tightly, yet comfortably.
• Make sure your mask covers your nose and mouth.
• Keep it clean. Wash it daily, or as needed.
• Refrain from touching or adjusting your mask in public.
• Do not borrow or lend your mask to others.
• Replace your mask if it has holes or is damaged.
• Keep it on in shared spaces and when physical distancing cannot be maintained. Only remove it in your private space when you are alone.

Huskies take care of Huskies.
