Introduction

Thank you for your interest in the 2016 Sponsored Programs Annual Report. This report represents the hard work of our faculty and staff who apply for and secure external funding for the research, scholarship and creative activities that drive our university mission and reinforce NIU's place as a student-centered, research-focused public university. The results of these projects, be they innovations that spur new patents, pedagogical techniques in the classroom or artistic programs in our community, contribute to the advancement of our region, state, nation and world.

Indeed, in FY 2016, 135 NIU faculty and staff secured 290 externally funded awards totaling \$28 million. You can read about some of these programs in the next few pages and find a listing of all awards in the details section of the report. You will quickly see that these projects represent the diversity of our programs and the expertise of our faculty and staff.

Sponsored Programs Administration (SPA) congratulates those who secured external funding during FY 2016 and appreciates the efforts of all NIU faculty and staff who submitted grant and contract proposals.

SPA looks forward to working with faculty and staff at all stages of the external funding process in the coming year. Our Research Development Specialists are available to talk about external funding plans and our Grant Administrators can help navigate the award management process. Do not hesitate to reach out. Contact information for all of our staff is available on the SPA website: niu.edu/osp/about/SPA_Staff.shtml

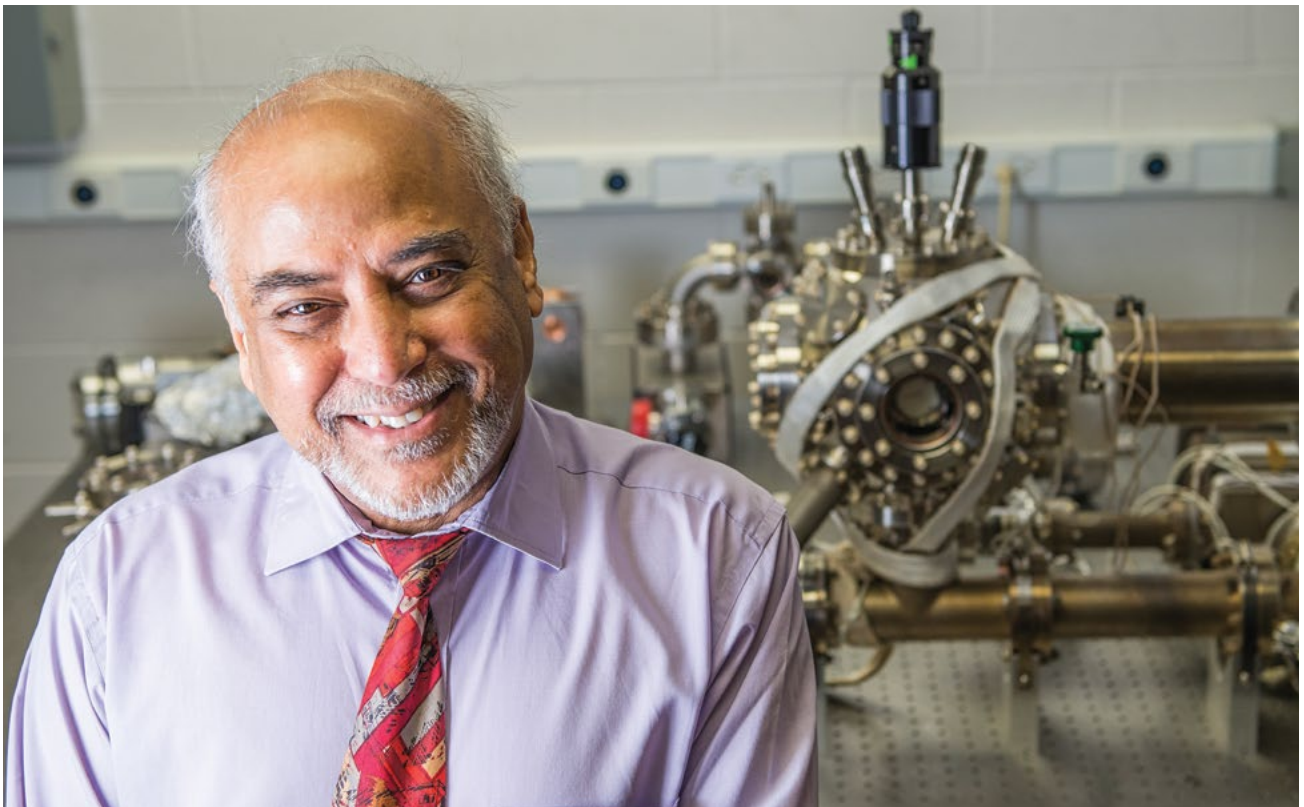

Again, congratulations and best wishes for a productive 2017!

Dara Little, MPA, CRA
Assistant Vice President for Research and Sponsored Programs

Diverse Programs, Broad Impact

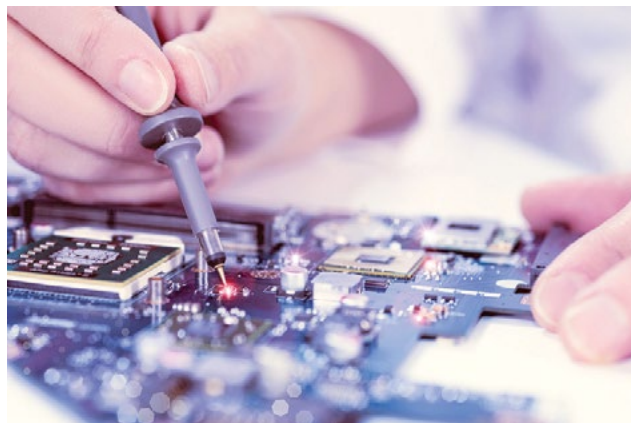

Engineering professor's invention helps company improve the lives of newborns

About half of neonatal intensive care unit (NICU) patients experience hearing loss due to the noises within the incubator and surrounding areas. Electrical engineering Associate Professor Lichuan Liu has invented an apparatus, system and method to significantly reduce those harmful noises while maintaining communication between the newborns and their parents or caregivers.

When applied to an incubator unit, the technology offers protection for infant hearing, soothes the infant via parents' voices and maintains audible contact of infant breathing and cries for medical staff. This is all accomplished without restricting the newborn's movement or impeding views of the child in the incubator.

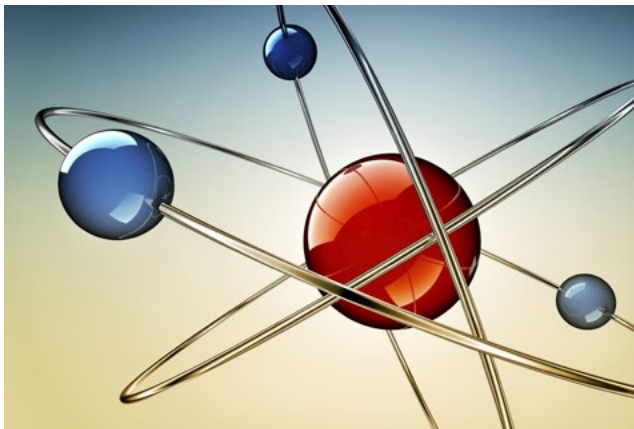

This apparatus proved particularly important to Invictus Medical Inc., a San Antonio, Texas, company dedicated to improving the lives of newborns and the individuals who care for them

by providing safe and effective medical products. Together, NIU and Invictus secured \$225,000 in National Science Foundation's (NSF) Small Business Technology Transfer (STTR) funding to evaluate the commercial potential of the invention and are currently waiting on the NSF's funding decision to continue research and development for the product.

High energy physics researchers flex their muscles

Unraveling the Big Bang. Laying the foundation for tomorrow's technology. Using some of the world's coolest, most innovative and most expensive scientific facilities.

Students and faculty involved in NIU's High Energy Physics program, which conducts research on the most fundamental particles and interactions of matter, are doing all of the above.

This past year, NIU's High Energy Physics (HEP) program flexed some extra muscle after receiving three new National Science Foundation (NSF) grants totaling \$1.77 million over three years.

That's more than double the amount of NSF funding in the previous three years for the NIU program.

The funding will further boost research efforts of faculty and students. Grant awardees included Vishnu Zutshi, David Hedin, Gerald Blazey, Dhiman Chakraborty and Jahred Adelman. The new funding is on top of ongoing federal research grants to HEP faculty Steve Martin and Michael Eads.

Getting to the heart of medical issues using electronic health records

Staff members from NIU's College of Health and Human Sciences are helping small health care clinics use their electronic medical-records systems to identify patients who need more focused heart-health attention and provide them with additional preventive services.

The effort is part of a project funded by the Agency for Health Research and Quality (AHRQ), part of the U.S. Department of Health and Human Services. The project seeks to better understand whether

electronic health-records systems can be used as the basis for quality improvement strategies intended to reduce heart-health risk in patients.

AHRQ is providing \$14.7 million to a collaboration led by Northwestern University's Feinberg School of Medicine, but stretching from northern Indiana to central Wisconsin, and including NIU and the northern Illinois region.

James Ciesla, a professor in the School of Health Studies and associate dean for research and resources in the College of Health and Human Sciences, is overseeing the NIU portion of the project.

Ciesla said NIU was well positioned to participate in the project. The Illinois Health Information Technology Regional Extension Center (ILHITREC), based at NIU, has supported thousands of Illinois providers and practices in the use of electronic health records since 2010.

Visual disabilities program builds on its role as national leader

Thanks to a five-year, \$1.25 million grant awarded to NIU by the U.S. Department of Education, the Visual Disabilities Program of the College of Education's Department of Special and Early Education (SEED) has launched a new master's degree.

The program provides specialized training in assistive technology used by people with visual impairments, with graduates earning the designation of Certified Assistive Technology Instructional Specialist for People with Visual Impairments (CATIS).

Most of the federal dollars go directly to recruiting students to NIU for this high-need area of specialization. Program participants receive free tuition, as well as challenging and rewarding careers with guaranteed employment.

"NIU is the first university offering a course of study toward this," said Stacy Kelly, associate professor in SEED and an alumna of the program. "Individuals who choose this career path experience a sense of fulfillment not commonly found in other careers. These teachers play a significant role in the lives of children who are visually impaired and their families."

Fostering respect, mutual understanding and civic engagement on a global scale

This past year, NIU's Center for Southeast Asian Studies welcomed to campus 60 young participants in the U.S. Department of State-funded Southeast Asian Youth Leadership Program (SEAYLP) and another 21 college-age participants in the State Department's Young Southeast Asia Leadership Initiative (YSEALI).

The programs include a number of community partners and academic units, such as NIU's College of Education, Center for Black Studies, Center for NGO Leadership and Development and Institute for the Study of the Environment, Sustainability and Energy.

Participants come to NIU from Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar (Burma), the Philippines, Singapore, Thailand and Vietnam. Here they learn about diversity and cultural appreciation, community action and activism, and networking and collaboration within the Association of Southeast Asian Nations (ASEAN).

CSEAS has been running SEAYLP for six years, and YSEALI is just beginning its second year.

"The effects ripple out across the region and throughout participants' home countries,"

said Judy Ledgerwood, director of NIU's Center for Southeast Asian Studies.

"Families in DeKalb, Sycamore and surrounding towns have had the chance to welcome these outstanding young people into their homes," she said. "Ideas learned here, from improving water quality to understanding the needs of people with disabilities, have been taken back to the 10 countries of the region. As President Obama said from a meeting with YSEALI youth in Laos, we are all strengthened when young people share ideas across countries."

These data represent the amount of sponsored funding spent out during FY 2016 and are a financial measure of sponsored programs activities for a given timeframe. The data will not correlate to the award data recorded throughout this report. Award data reflect new funding to NIU while expenditure data reflects actual spending levels for all sponsored awards that were active in FY 2016.

Recognition

Recognition

Presidential Research, Scholarship and Artistry Professors

Presidential Research Professorships recognize the outstanding accomplishments and future potential in academic research or creative artistry. SPA extends congratulations to all past and current Presidential Research Professors.

2016-2020

Swapan Chattopadhyay, Department of Physics

Omar Chmaissem, Department of Physics

2015-2019

Sanjib Basu, Division of Statistics

Anne Britt, Department of Psychology

Aaron Fogleman, Department of History

2014-2018

Giovanni Bennardo, Department of Anthropology

Ana Calvo-Byrd, Department of Biological Sciences

Nancy M. Wingfield, Department of History

2013-2017

Elizabeth Gaillard, Department of Biological Sciences

Wei Luo, Department of Geography

Philippe Piot, Department of Physics

2012-2016

Joseph Magliano, Department of Psychology

2011-2015

Dhiman Chakraborty, Department of Physics

Richard King, Department of Biological Sciences

2010-2014

Jeff Kowalski, Department of Art History

Amy Newman, Department of English

Zhili Xiao, Department of Physics

2009-2013

Reed Scherer, Department of Geology and Environmental Geosciences

Larry Arnhart, Department of Political Science

Michel van Veenendaal, Department of Physics

Research and Artistry Recipients

Research and Artistry Awards are provided by the Division of Research and Innovation Partnerships to enhance extramural funding, develop new projects through preliminary data collection, foster interdisciplinary research and support new research and artistic activities for beginning faculty. SPA extends congratulations to the recipients of the FY 2016 Research and Artistry awards.

Maryann Abendroth	Nursing & Health Studies
Jahred Adelman	Physics
Abu Bah	Sociology
Akshay Bhagwatwar	Operations Management and Information Systems
Omar Chmaissem	Physics
Kyu Taek Cho	Mechanical Engineering
Anthony Deldin	Kinesiology and Physical Education
Damian Fernandez	History
Allison Gladfelter & Christine Odeh	Allied Health and Communicative Disorders
Andrea Guzman	Communication
Laura Heideman	Sociology/NGOLD
Beatrix Hoffman	History
Jim Horn	Chemistry & Biochemistry
Rebecca Houze	Art and Design
Mitch Irwin	Anthropology
Eric Johnson	Music
Venumadhav Korampally	Electrical Engineering
Emily McKee	Anthropology/ESE
Thomas Pingel and Stacy Kelly	Geography
Iman Salehinia	Mechanical Engineering
Karen Samonds	Biological Sciences
Alecia Santuzzi	Psychology
John Shelton	Mechanical Engineering
Andrew Tawfik	Educational Technology, Research and Assessment
Jui-Ching Wang	Music
Yanbin Yin	Biological Sciences

PI Academy

The PI Academy provides professional development and mentoring to help faculty position themselves for external funding and thriving research careers. The Academy consists of a professional development series and competitive external mentorship program. The professional development series offers information and insight about the range of activities of a successful investigator while the mentorship program pairs early career tenure-seeking faculty with senior mentors to provide guidance and advice around one grant proposal or publication. SPA extends congratulations to the FY 2016 Academy faculty who are working with mentors to enhance their research programs.

Kyu Taek Cho	Mechanical Engineering
Aaron Deslatte	Public Administration
Andrea Guzman	Communication
Lindsay Harris	College of Education
Laura J. Heideman	Sociology
Nicole LaDue	Geology and Environmental Geosciences
Amanda McCarthy	Allied Health and Communicative Disorders
Christine Odeh	Allied Health and Communicative Disorders
Andrew Tawfik	Educational Technology, Research and Assessment
Shuqi Zhang	Kinesiology & Physical Education

Elizabeth Gaillard, Department of Chemistry and Biochemistry—*Therapeutic Uses of Glutathione Mimics* (Pat. 9,084,803)

Elizabeth Gaillard, Department of Chemistry and Biochemistry—*Biomarkers of Inflammation in Bruch's Membrane of the Human Retina* (Pat. 9,247,875)

Timothy Hagen, Department of Chemistry and Biochemistry—*Design and Synthesis of Novel Inhibitors of Isoprenoid Biosynthesis* (Pat. 9,309,232)

Narayan Hosmane, Department of Chemistry and Biochemistry—*Crystalline Graphene and Method of Making Crystalline Graphene* (Pat. 9,340,430)

Lichuan Liu, Department of Electrical Engineering—*Apparatus, System and Method for Noise Cancellation and Communication for Incubators and Related Devices* (Pat. 9,247,346)

—This invention was partially supported and funded by an NIH (National Institute and Deafness and other Communications Disorder (NIDCD)) award, grant number 5R03DC009673-02.

Tao Xu, Department of Chemistry and Biochemistry—*Highly Efficient Dye-Sensitized Solar Cells Using Microtextured Electron Collecting Anode and Nanoporous and Interdigitated Hole Collecting Cathode and Method for Making Same* (Pat. 9,129,751)

Certificates of Recognition

President Douglas Baker*, **Marilyn Bellert**, **Deborah Pixton**, Division of Outreach, Engagement, & Regional Development—*Northern Illinois Regional P-20 Network*

James Benson, Department of Mathematical Sciences—Ultra-Rapid Tissue Cryopreservation Method and Apparatus

Wendy Bostwick, School of Nursing & Health Studies—*E-diaries to assess health effects of microaggressions*

— This project was funded by the National Institute of Minority Health and Health Disparities

Gillian King-Cargile*, **Kristin Brynteson**, **Mary Baker**, **Jacob Johnson**, **Erin Spencer**, Division of Outreach, Engagement, & Regional Development—*STEM Read*

Melissa Lenczewski, Department of Geology & Environmental Geosciences—*Short Course in Central Myanmar on Groundwater*

— This project was funded by the National Ground Water Research and Education Foundation

Jimmie Manning, Department of Communication—*Tinderbots*

Christine Mooney*, Department of Management and **Mansour Tahernezehadi**, College of Engineering & Engineering Technology—*Idea, Innovation & Impact Lab (I-Lab) Accelerator Program*

— This project was funded by VentureWell

Thomas Pingel*, Department of Geography and **Stacy Kelly**, Department of Special & Early Education—*3D Printed Maps for People with Visual Impairments*

Individual Donations and Financial Aid

Donations

Bode, Barrie, Biological Sciences, Avian Immunogenetics Research Fund, Briles Family Foundation, \$9,764

Kersh, Renique, Executive Vice and Provost's Office, Jaymie and Harry Simmon Expendable Research Rookies Fund, Jaymie and Harry Simmon, \$5,000

Liu, Chang, Operations Management and Information Systems, Syndeo Faculty Research Fellowship in OMIS, Syndeo Networks, Inc., \$10,000

Matuszewich, Leslie, Psychology, Dr. Gordon Wood Memorial Psychology Graduate Research Assistantship Awards, Joan E. Wood, \$100,000

McCord, Christopher, College of Liberal Arts and Sciences, Dean's Office, John and Lili La Tourette Student Research Awards, John and Lili LaTourette, \$21,000

Schoenbachler, Denise, College of Business, Dean's Office, David and Joanne Weick Endowed Faculty Research Fellowship, David and Joanne Weick, \$251,677

Zinger, Donald S., Electrical Engineering, Semiconductor Research Laboratory, Institute of Electrical and Electronics Engineers, \$4,847

FISCAL YEAR TOTAL \$402,288

Student Financial Aid

Babel, Rebecca, Student Financial Aid, PELL Grant 2015, Department of Education, \$29,294,950

Babel, Rebecca, Student Financial Aid, Student Educational Opportunity Grant (SEOG), Department of Education, \$836,864

Babel, Rebecca, Student Financial Aid, Federal Work Study, Department of Education, \$891,320

FISCAL YEAR FINANCIAL AID TOTAL \$31,023,134

Report Notes

Report Notes and Definitions

Annual Report Reporting Period

The **fiscal year (FY)** for NIU is July 1 to June 30. This report includes data for all awards and proposals processed through SPA for the FY 2016 period. An award is considered processed by SPA when it has been reviewed, institutionally endorsed (if necessary), assigned a grant account number and a communication has been sent to the Principal Investigator/s (PI). A proposal is considered processed through SPA after the institutional review and sign off process is complete, and the proposal has been submitted to the funding agency.

Definition of Award

An **award** is a funded project for which NIU has received an official notice of award or executed contract from a sponsor requiring the university to undertake a particular activity and for which a deliverable is expected. Awards that provide full funding in the first year of a multi-year project are included in the fiscal year the award was made. Award dollars received from sponsors that provide funding for specific budget periods within a multi-year project (i.e., incremental awards) are included in the fiscal year for which funding is received. Consequently, funding can fluctuate for a department or college depending on how a project is funded. Direct year by year comparisons should always be made with caution.

Definition of Proposal

A **proposal** is a request for financial support for a particular sponsored activity that is routed through SPA. It is important to recognize that there is no correlation between the proposals and awards in this report, as many of the proposals noted in this report are still pending with the sponsor.

Intellectual Credit

For projects that have Co-Principal Investigators (Co-PIs), the total award is allocated to the lead or contact PI and his/her respective home academic unit or center. Each Co-PI's participation on the project is indicated with a notation under the Co-PI's home academic unit or center to see the lead or contact PI's entry for complete award details.

Research Center Credit

Involvement of a research center or interdisciplinary unit is noted in the individual award sections for each activity type.

Sponsor Types

SPA recognizes five categories of **sponsors**: federal, state, corporate, public/nonprofit, and foreign. Federal sponsors for proposals and awards include direct federal funding as well as flow-through funding for which federal dollars come to NIU through a non-federal entity (e.g., state agency or another university). Public/nonprofit sponsors include non-Illinois institutions of higher education, municipalities, civic organizations, as well as nonprofit and non-governmental organizations.

Research

Research and development include both basic and applied research activities undertaken in order to increase the stock of knowledge – including knowledge of humankind, culture and society. Research also includes funding to maintain research facilities, disseminate project findings and training individuals in research techniques. Research does not include technical testing activities.

Basic Research: Experimental or theoretical work undertaken primarily to acquire new knowledge of the underlying foundations of phenomena or observable facts without any participation or application in mind.

Applied Research: Original investigation undertaken in order to acquire new knowledge to meet a specific, recognized need.

Instruction

This activity defines teaching and training activities of the institution that are intended to elicit some measure of “educational change” in a learner or in a group of learners. Instruction includes all teaching and training activities, whether offered for credit(s) towards a degree or certificate, on a non-credit basis, or through regular academic departments or separate divisions, such as a summer school division or an extension division.

Other Sponsored Activities

These programs include public service programs that bring the various resources and capabilities of NIU to the community to respond to a local need. Other sponsored programs may also include student support programs, testing and evaluation activities that do not meet the definition of research, joint appointment agreements, and some workshop and travel grants.

Sponsored Programs Administration

Annual Report 2016

DeKalb, Illinois 60115

Production: Julie Miller, eRA Coordinator, SPA

Northern Illinois University is an equal opportunity institution and does not discriminate on the basis of race, color, religion, sex, age, marital status, national origin, disability, status based on the Victims' Economic Security and Safety Act (VESSA) or status as a disabled or Vietnam-era veteran. Further, the Constitution and Bylaws of Northern Illinois University provides for equal treatment regardless of political views or affiliation, and sexual orientation. Inquiries concerning application of Title IX, Section 504, and other statutes and regulations may be referred to the Affirmative Action and Diversity Resources Center, 1515 W. Lincoln Highway, DeKalb, IL 60115, telephone 815-753-1118. Printed by authority of the State of Illinois. niu.edu 48126 9/16
