

- Date, time: Monday, October 5, 2026, 10:55 – 12:20.
- Do bring:
 - Pencils and erasers
 - One standard (8.5×11 -inch) sheet of paper with anything you want **in your own original handwriting**. You may use both sides of the sheet, or one side of two sheets, if you prefer (and I recommend). Write as small as you want, but if you write much smaller than you normally would you are probably overdoing it.
 - Blank paper for your answers, if you wish. I will be scanning these to email back to you, so if you bring your own paper, please make sure they are standard size, don't have any ragged edges, and won't jam the copy machine.
- Provided for you:
 - Blank paper for your answers
- No need to bring (and not to be used):
 - Books, calculators, electronic devices of any kind, notes other than described above
- What to study:
 - Topics, concepts, and techniques covered in class and homework sets 1-4. **Studying homework problems, and the concepts that they involve, is your best use of time.**
- Homework 4 must be turned in no later than midnight on Friday, October 2. Solutions will be emailed to you the next morning.
