V. PUBLIC COMMENT

VI. ITEMS FOR UC STEERING COMMITTEE CONSIDERATION

A. Reviewing the structure and processes of shared governance

Input has been sought from stakeholders including NIU shared governance leaders, administration, faculty and students, as well as shared governance leadership from other Illinois universities. There is support across the board for redesigning NIU’s shared governance structure to better align with benchmark structures at NIU’s sister institutions in Illinois, and to assign academic authority to Faculty Senate.

The plan is to develop a proposal within Faculty Senate and then submit it to UC.
Faculty Senate timeline:
9/4/19        Introduce concept
10/2/19       Present related data
10/30/19      Propose NIU Bylaws amendments

K. Thu noted that caution must be used when discussing any workplace issue that is part of the ongoing collective bargaining negotiations, such as tenure and promotion, or workload policy. J. Royce noted that he also uses as a guideline the measure of whether a particular topic impacts constituency members who are not covered by a union.

K. Thu shared a draft shared governance organizational chart. C. Doederlein noted that SPS Council, Operating Staff Council and the Student Association are not represented on the shared governance organizational chart. Should these shared governance constituencies be included?

F. Barnhart inquired as to how NIU’s shared governance structure is unique from its sister institutions? K. Thu replied that the most significant difference is that there is no University Council at other institutions. The closest we can come to it is a sort of executive committee.

I. Pearson shared that he completed some shared governance archival research over the summer and noted that the number of committees seemed to expand significantly during the 1990’s.

K. Thu reported that a list of priority issues has been developed for Faculty Senate consideration at its September 4 meeting.
