

Inventory of the

Postcard Collection

In the

Regional History Center

RC 199

INTRODUCTION

The Regional History Center's postcard collection contains over 2,500 individual cards and provides a unique source for photographic and artistic documentation of people, places and events, the majority during the 1900-1940 period. A majority of the cards in this collection came from four manuscript collections held by the Center: W.W. Embree (RC 2); Sabin-Van Arsdale (RC 32); Kavadas (RC 50); Hall Family (RC 117).

Although most of the cards depict scenes or events from the Northern Illinois region, other states and foreign countries are also represented in the collection. The main body of the collection is arranged by geographic place name, and the remainder arranged by subject. In addition there are oversize postcards and packets which are housed separately. Completing the collection is a box of non-postcard materials of related interest including advertisements, blotters, holiday cards, and Bible verses and proverbs.

Property rights in the collection are held by the Regional History Center; literary rights are dedicated to the public. There are no restrictions on access to the collection.

Linear feet of shelf space: 3.50
Number of containers: 12
